## Army Getting Production in Great Aviation Plant OPERATORS ACCEPT LABOR BOARD'S PLAN

**Way Paved for Settlement of Controversy in Coal Area**

**Negotiations To Start Immediately for Contracts in Southern and Northern Fields**

WASHINGTON, June 9 (AP)—Southern and northern soft coal operators and the United Mine Workers accepted today recommendations of the Defense Mediation Board for settling the dispute in the coal industry. The acceptance was announced by William H. Davis, vice chairman of the board, who described them as "bright spots" in the national landscape. The effect of the action, Davis said, is to pave the way for immediate negotiations of contracts between the United Mine Workers and the two operator groups. A strike over the union demands ended May 1 so that the mines have been operating since that time, but a final settlement of the questions involved awaited acceptance of the board's proposals. Best known of these called for limitation of the forty-cent-a-day differential between pay of northern and southern day workers. All Get Same Wage The southern operators, by agreeing to the board's proposal, put their side on the same \$7-a-day rate as at paid in the north. Differentials in the wages of men or are paid by the ton rather than (Continued on Page 2, Col. 5)

**30 Strikers Injured in Clash with U. S. Troops**

**Nearly 2,000 Men Return to Work on Day Shift and 600 Report on Night Jobs; More Due Today**

LOS ANGELES, June 9 (AP)—The government took over the great North American Aviation works tonight to terminate a five-day work stoppage which Attorney General Jackson said "more nearly resembles an insurrection than a labor strike."

At the same time, Lieut. Col. Charles E. Branshaw, chief procurement officer on the west coast for the army air corps, said he was in complete charge of the plant and that he saw no need for negotiating further with the striking CIO union.

**Plant in Production**

Lieut. Col. Charles W. Steinmetz, assistant to Col. Branshaw, said the plant was in actual production today.

He said 1,881 workers returned to work on the day shift and 600 reported on the night shift. Normally the plant employs 12,000 on three shifts.

"We were in actual production today and will have some of the planes we were working on ready to fly tomorrow morning," he asserted.

"We believe we will have a full shift on duty tomorrow, turning out planes at the plant's full capacity."

**30 Persons Injured**

At least thirty persons were injured, eleven severely enough to (Continued on Page 2, Col. 1)

**Tugboat Strike Ties Up 30 Vessels in Baltimore**

**Business of Five Towing Companies Crippled by Walkout; Two Ships Reach Their Berths**

BALTIMORE, June 9 (AP)—A strike of tugboat officers kept thirty vessels of five towing companies idle in this busy Chesapeake Bay port today following the collapse of wages and hours negotiations.

The strike was called late last night at a meeting of local No. 1510, Licensed Marine Officers, International Longshoremen's Association (AFL).

Maritime exchange officials said there was no interference with shipping but steamship operators said the strike impeded movement of aid-to-Britain cargoes and defense materials being stored here.

**Two Ships Arrive**

Chiefly affected by the tie-up was the handling of incoming ships. The only two freighters due in, the American-Hawaiian steamer Pennsylvania and the Standard Fruit Company's Granada, both managed to slip into their berths without the aid of tugs.

A spokesman for the tugboat owners' association said the strike followed failure of the operators to grant the officers' wages and hours demands. Neither side would say what the demands were.

Unofficial estimates were that more than 200 licensed engineers, pilots and mates were involved in (Continued on Page 2, Col. 5)

**House Votes Blacklist Of All Defense Strikers**

WASHINGTON, June 9 (AP)—With the army in charge of the North American Aviation Corporation plant and the strike there declared "virtually broken," draft headquarters today issued a sweeping work-or-fight edict and a cheering House voted to blacklist persons who defy the national Defense Mediation Board.

The legislators approved an amendment to deny any part of a pending \$10,000,000,000 army appropriation bill to any worker or employer who refuses for "as long as 10 days" to abide by recommendations of the Mediation Board.

Offered by Rep. Pace (D-Ga.), the amendment was adopted on a standing vote of 172 to 31 after Rep. Woodrum (D-Va.) declared:

"The time has got to come when men on the floor of this house have got to make up their minds to vote in the interest of America even though they know that vote may keep them at home."

Many members rose from their seats and cheered this declaration.

**Sees Time for Action**

Woodrum also said that "it is ridiculous for us to strut around bragging and thumbing our noses at Hitler while we haven't the intestinal fortitude to come to grips with a few labor leaders in America."

Earlier in the day, President Roosevelt had ordered steel-helmeted troops of the hand-picked Fifteenth Infantry to move in on the Inglewood, Calif., plant of North American Aviation and with bayonets fixed and machine guns ready they took over the big factory from a CIO picket line.

And Brig. Gen. Lewis B. Hershey, with Mr. Roosevelt's approval, ordered local draft boards to reconsider the classifications of all men who were deferred because of their employment in defense industries but "who have ceased to perform their jobs."

Mr. Roosevelt's action in directing war department possession and operation of the North American plant, which he took "as president and commander in chief of the (Continued on Page 2, Col. 1)

**British Squadron Ready To Attack Cities in Syria**

**Beirut and Tripoli Held Under Threat of Bombardment**

LOCHY, UNOCCUPIED FRANCE, June 9 (AP)—British naval squadrons were reported lying off Beirut and Tripoli, Lebanon's capital and chief port, holding them under the grim threat of their guns, ready to speed the land campaign in a naval bombardment.

The French acknowledged that situation on land, after two days of an offensive by British imperial forces and De Gaulle's, to stand mandated Syria and Lebanon in Vichy's control, was "particularly grave."

Those words were attributed to Gen. Benoist Mechum, old-time foe of Vice Premier Admiral Darlan and now one of his chief collaborators with the Germans at sea.

At the French forces, at sea, and in the air, were put up a "tenacious resistance to forces of the adversary, superior in number and powerfully armed," munitions from Beirut said.

**Armored Cars Destroyed**

One sector of the land fighting was number of armored vehicles taking anything from Bren gun (Continued on Page 2, Col. 6)

**Antic Army Bill Passed by House Bars Workers Who Strike**

WASHINGTON, June 9 (AP)—After two amendments designed to curb strikes, the House today passed a \$10,000,000,000 war defense appropriation bill—the first single military fund since World War I.

The two-day debate given over to talk of labor's responsibilities rather than discussion of warplanes, tanks and supplies, closed up with rejection of three bills to outlaw defense strikes, but with acceptance of two proposals:

1. By Rep. Case (R-SD), to prohibit use of any of the appropriation for the pay of a person who assists in maintaining a picket line "or otherwise secures forcibly to present the return of workers" to a plant after the National Defense Mediation Board decides that further stoppages will critically impede the defense program. Adopted by a 138 to 84 tally vote.

2. By Rep. Pace (D-Ga.), to deny employment to persons or (Continued on Page 2, Col. 5)

**U. S. Production Of War Machines Shows Big Gains**

**Ten Thousand Airplane Engines Turned Out Each Month**

**Will Soon Double Capacity of Germany, Expert Declares**

By EDWIN STOUT

CLEVELAND, June 9 (AP)—Ten thousand airplane engines, 400 light tanks, 300 anti-aircraft guns and 240 medium tanks a month. Five thousand blitz buggies a week. Two hundred scout cars a day.

Those figures may sound like day-dreams on a general's doodle pad, but newborn American war industries are making them come true. Give them a little time and these new factories will produce as much as any handful of other nations put together, their managers say. Yet they'll need the time.

A trip through the guarded gates of the factories and a talk with the engineers who designed them shows the how and why. With other returned war correspondents I have gone through key defense factories in five states with army and navy officers as guides.

**Producers Confident**

Everyone with whom I talked—army officer, engineer, production chief, draftsman, or mechanic—was confident that this country eventually could turn out more and better equipment than all of continental Europe put together.

The men who knew most about (Continued on Page 9, Col. 4)

**Three Survivors Of Ship Sinking Reach New York**

**Americans Say Egyptian Steamer Zamzam Shelled without Warning**

NEW YORK, June 9 (AP)—Three survivors of the Egyptian steamer Zamzam, sunk by a German raider in an attack described by their spokesman as "brutal and premeditated," arrived tonight aboard a Pan-American airways clipper, the first survivors to return.

They were Charles McCarthy, volunteer driver for the British-American Ambulance Corps; David A. Scherman, photographer for Life magazine; and Charles V. Murphy, Fortune magazine writer. They were released by German authorities after being held with 137 other American passengers.

Murphy, with sarcastic emphasis, said the Germans aboard the raider behaved "correctly" toward the survivors. "They patted the children on the head; they didn't machine gun us," he said. He added the Zamzam was shelled without warning and that the incident was "brutal and premeditated."

Murphy said the raider approached at high speed and opened fire. The first two salvos missed but the (Continued on Page 2, Col. 8)

**U. S. Defends Britain's Attack On Syria, Scores Vichy Regime**

By J. C. STARK

WASHINGTON, June 9 (AP)—The United States defended the British attack on French-mandated Syria and Lebanon today and in effect accused the Vichy government of fighting Germany's battle in the near east.

Secretary of State Hull defined the American government's attitude on the British-French clash in a long talk with Gaston Henry-Haye, the French ambassador.

Deploing any French military help to Germany, Hull was reported (Continued on Page 2, Col. 7)

INNOCENT VICTIM OF WAR

Sheila Barrow is too young to understand why there is a war, but she is not too young to feel pain. She is one of many children admitted to Queen's for Children Hospital, London, after having contracted ailments in the dank underground railway stations in which thousands of unevacuated children spend their lives during bomb raids. Sheila is 18 months old.

**7,000 Men on Strike in Aluminum Company Plant**

**Production of Aircraft Parts and Other Defense Goods Delayed by Action of CIO Unions**

CLEVELAND, June 9 (AP)—A long-threatened strike halted work today at the sprawling plant of Aluminum Company of America, where 7,000 men have been turning out aircraft parts and other defense goods.

The CIO Die Casters Union said it called the strike because Washington negotiations on wage demands were "getting nowhere." It declared union members had concluded that "government actions were aiding the Aluminum company of America in its attempts to deny our membership the wages and working conditions that this great-est of all monopolies can well afford to grant."

**Conference in Washington**

The walkout came as company and union representatives conferred at Washington with a Mediation Board panel.

Pickets hoisted "on strike" banners at the afternoon change of shifts. Company spokesmen said about 2,000 second-shift workers made no attempt to enter the plant. Union representatives reported ten men who refused to join the walkout were ejected forcibly from the factory. Pickets halted trucks seeking to enter the grounds.

The union's statement asserted it (Continued on Page 2, Col. 2)

**British Advance Many Miles on Syrian Cities**

LONDON, June 9 (AP)—Advancing behind the steel snouts of Twentieth century tanks over dusty lands older than history, British and Free French forces officially were declared tonight to have captured ancient Tyre and to be driving on virtually unimpeded toward Damascus and Beirut, the main cities of French Syria and Lebanon.

Offshore, warships of the Royal navy were reported in action along the Syrian coast; in the skies British planes supported the allied offensive which appeared to be fast shaping up as a supreme effort of the three British arms of war.

The British command summed up the situation with the declaration:

"The penetration of Allied forces is progressing."

"By this morning they were beyond Tyre and later effected a crossing of the river Litani. On the right they had advanced beyond the general line Ezraa-Sheikh-Miskine-Kuneitra."

**Here's the Picture**

This was the picture: on the Mediterranean shore—that shore where Christ gave his gentle lessons to the fisherman twenty centuries ago—the Allied offensive from Palestine along the Tyre-Sidan road had reached to within forty miles of Beirut, Lebanon.

To the east and within the British thrust from trans-Jordan had been extended twenty-five miles within Syria and forty miles or less southwest of Damascus.

**Robin Moor Torpedoed By German Submarine, Navy Department Hears**

**Eleven of Crew Reported Rescued and 27 Others and Eight Passengers Are Believed Adrift in Lifeboats; Baltimore Man and His Wife among the Missing; Reports Not Confirmed**

WASHINGTON, June 9 (AP)—A report that the American steamer Robin Moor was torpedoed and sunk in the South Atlantic "by a German submarine" was received by the navy today via commercial communication channels.

Officials stressed that the report, the origin of which was credited to the Brazilian steamer Osorio, had not been confirmed officially.

The message, intercepted by RCA communications, was relayed from the Brazilian vessel to the steamship Lages and then to the Deer Lodge.

It said the Osorio reported having found one lifeboat with survivors and added that the Osorio also said the Robin Moor "was torpedoed by a German submarine."

**TEXT OF MESSAGE SECRET**

The navy guardedly declined to publish the exact text of the message pending confirmation of the report.

The Maritime Commission said its understanding was that the ship was carrying a general cargo of automobiles, steel and other material but no war munitions.

Tonight Jefferson Caffrey, American ambassador to Brazil, informed the state department of a report that the Robin Moor had been sunk, but did not state what was the cause of her destruction.

**11 of Crew Rescued**

Caffrey said the captain of the port at Fortaleza had received a message from the Osorio reporting that yesterday at 9 p. m., she picked up eleven crew members who were drifting in a lifeboat in latitude 00.46 north and longitude 37.37 west.

The message from Osorio said the Robin Moor was sunk on May 21 while navigating in latitude 6.15 north and longitude 29.30 west.

In spite of all efforts, the message said, the captain of the Osorio had not yet been able to find the other three life boats of the Robin Moor; aboard these craft were said to be a crew of twenty-seven and eight passengers, including three women and one child.

**Baltimore Man In Command of Ship**

NEW YORK, June 9 (AP)—The crew list of the S.S. Robin Moor, with home addresses of next of kin, included:

E. W. Myers, Mrs. J. Myers, Baltimore, master; Melvin V. Mundy, Bethlehem, Pa., first officer; Fred Hayes, Cleveland, O., able seaman; Peter A. Buss, Bethlehem, Pa., able seaman; Francis J. Batkiewicz, Altoona, Pa., ordinary seaman; Karl Nilson, Baltimore, first assistant chief engineer; Frank B. Ward, Portsmouth, Va., oiler; Peter Danielak, Akron, O., water tender.

Of the eight passengers, four were Americans—Mr. and Mrs. Ben Cohen, and R. W. McCullough and his son, R. N. McCullough, aged 2. Mrs. McCullough, also aboard, was said to have been originally a Dutch citizen but had not yet become an American citizen.

The "remaining passengers"—Mr. and Mrs. H. G. Gemmell and P. C. Eccles—were described as British subjects.

McCullough, 32, bound for Port (Continued on Page 2, Col. 1)

**Midwest Floods Cover Wide Area; Damage Is Heavy**

**Woman Drowns in Street; Hundreds Forced To Flee Homes**

(By The Associated Press)

Continued heavy rains added to flood threats last night in large areas of the midwest, plagued the last two days with death-dealing tornadoes, cloudbursts and windstorms.

Eight persons, including five members of one family, were killed by two tornadoes in farm country northeast of Wichita, Kas. About twenty persons were injured. A tornado at Ruleton, Kas., injured one man and destroyed five residences and a school house.

Four persons were killed and more than a score injured by a tornado which struck Kress and Clarendon, Texas, panhandle towns.

**Woman Drowns in Street**

A flash flood at Creston, Iowa, overtook a woman on a street and she drowned.

Downpours of rain swelled streams throughout the wheat belt. Tributary rivers of the Kaw, which empties into the Missouri at Kansas City, rose rapidly in Kansas and Nebraska. Observers reported that the Republican river at several points was as high as in 1935, when it flooded disastrously.

About one-fourth of Marysville, Kas., a town of 4,000, was under flood waters of the Blue river. At (Continued on Page 2, Col. 2)

**Tydings Favors Board To Settle Labor Troubles; Raps Seizures**

WASHINGTON, June 9 (AP)—Senator Tydings (D-Md.) proposed tonight creation of a three-man board to pass on defense labor disputes and make decisions binding on employer and employee alike, with severe penalties for failure to accept the board's rulings.

Strikes in essential defense industries are luxuries which we cannot afford," the Marylander said in a National Broadcasting Company radio speech. "We must set up definite machinery which will settle disputes without strikes, so long as our nation is in danger, so that products may continue to flow from our defense industries in the national interest."

**Board Will Settle Disputes**

Tydings proposed that labor be required to present grievances to employers in writing, with the employer being required to answer and both complaint and answer made public.

If employer and employee could not agree, a board composed of a representative of labor, a representative of industry and a representative of the government (Continued on Page 2, Col. 5)

## Jackson Blames Labor Heads for Aviation Strike

### Says Those Who Follow the Communist Line Are Responsible

WASHINGTON, June 9 (AP)—Attorney General Jackson, attributing defiance of the government in the North American Aviation strike to labor leaders who follow "the Communist party line," declared today that the situation "more nearly resembles an insurrection than a labor strike."

Jackson made this assertion in a statement in which he said the president's authority to take over the plant "rests upon the aggregate of the presidential powers derived from the constitution itself and from statutes enacted by the Congress."

**President Has Power**  
"The constitution lays upon the president the duty to take care that the laws be faithfully executed," Jackson said. "Among the laws which he is required to find means to execute are those which direct him to equip an enlarged army, to provide for a strengthened navy, to protect government property, to protect those who are engaged in carrying out the business of the government, and to carry out the provisions of the Lend-Lease act. x x x

"The constitution also places on the president the responsibility and vests in him the powers of commander in chief of the army and of the navy. These powers for the protection of the continued existence of the nation are placed in his sole command and the implication is clear that he should not allow them to become paralyzed by failure to obtain supplies for which Congress has appropriated the money and which it has directed the president to obtain."

**Communists Want Strikes**  
"The situation at the North American plant more nearly resembles an insurrection than a labor strike. The president's proclamation recites the persistent defiance of governmental efforts to mediate a legitimate labor difference. The distinction between loyal labor leaders and those who are following the Communist party line is easy to observe. Loyal labor leaders fight for a settlement of labor grievances. Disloyal men who have wormed their way into the labor movement do not want settlements; they want strikes. That is the Communist party line which those who have defied both government and their own loyal leaders to prevent a settlement of the strike have followed. There can be no doubt that the duty constitutionally and inherently rested upon the president to exert his civil and military, as well as his moral authority to keep the defense effort of the United States a going concern."

**Midwest Floods**  
(Continued from Page 1)  
least 100 families were forced to evacuate their homes.

**Many Highways Covered**  
Floodwater covered many highways and railroads in southwestern Iowa. Eight inches of rain fell near Riverport, Ia. Continued rains were forecast for the state.

A sixty-mile an hour wind tore down trees at Lawrence, Kas., and disrupted commencement activities at the University of Kansas.

The Chicago board of trade heard that black rust was spreading rapidly in rain-affected sections of the wheat belt. The rains have impeded harvesting of one of the largest crops in years.

Southeastern Nebraska suffered extensive property damage from the flooding Republican, Nemaha, Big Blue and Little Blue rivers. Residents were evacuated from parts of Beatrice, Superior, Fairbury, and the entire town of Hubbell, population 225, moved out.

**7,000 Men**  
(Continued from Page 1)

had become "obvious" to the membership and their policy committee "that after six weeks had elapsed since the overwhelming election victory (naming the Die Casters as official bargaining agency for 5,500 hourly production workers) the Aluminum Company of America did not intend to bargain in any reasonable manner."

**Scores Mediation Board**  
The membership "all alone" had expressed doubt as to the Mediation Board's "purpose," the statement said, adding:

"This doubt was heightened by the persecution leveled against Alex Baint, union regional director by six government authorities and by the action taken by the government against the west coast aircraft workers."

Baint's final citizenship papers have been held up, the Cleveland News reported, pending inquiry by federal agencies. Chairman Dies of the House committee on un-American activities said last April that Baint and several other union leaders were "engaged in an effort to sabotage on behalf of the totalitarian powers."

The company made no comment on the union statement.

The Die Casters Union asks a general 4½-cent hourly wage increase on top of an 8-cent hourly boost granted April 22, and demands that the minimum wage of 72 cents an hour be raised to 75 cents.

**Reunion Will Be Held**  
BECKLEY W. Va., June 9 (AP)—An invitation to speak at the Lilly family reunion will be extended to Mrs. Franklin D. Roosevelt. Mrs. V. T. Lilly, secretary of the reunion association, announced. The gathering, one of the largest of its kind in the nation, will be held August 16-17.

Also to be invited are Wendell L. Wilkie, Republican nominee for president in 1940, and Mrs. Ruth Bryan Owen Rolfe of Alderson, former United States Minister to Denmark.

## BROADWAY TO BRITAIN

Angered by that man with the trick mustache," Hugh Williams, British actor is going home—quitting Broadway for blacked-out Britain. He hopes to get into the army, and his wife, Helen, is volunteering as an ambulance driver. They are shown before boarding the trans-Atlantic plane at New York.

negotiations will be conducted through the process of collective bargaining."

Sidney Hillman, associate director of the Office of Production Management and a former vice president of CIO, issued a statement condemning the strike at North American. He said "interference with defense production by irresponsible and subversive groups cannot be tolerated."

**Senate Delays Draft Action**  
At the capitol, the Senate put over to tomorrow consideration of a measure permitting the president to defer selective training for men over 23, to which administration senators proposed to offer amendments empowering the government to take over defense plants where production has stopped.

Immediate consideration was blocked by Senator LaFollette (Prog-Wis.), who opposed the deferment authority for the president, and by Republican leader McNary of Oregon who objected that the amendment would make the legislative situation "complex" and that the Senate should have further time for study before debate.

## 550 British Air Cadets To Start Training in U. S.

### Welcomed at Atlanta after Two-day Journey from Canada

ATLANTA, June 9 (AP)—Ending a long train haul from Toronto, Canada, with shouts of "Thumbs up! When do we fly?" 550 British fledglings piled into a half-dozen southern flying fields today to start primary training for commissions as Royal Air Force pilots.

With weary smiles through grime of their two-day journey on day coaches, they submitted to local welcoming ceremonies—in one case including tea and doughnuts served by girls in cowgirl attire—then raced happily for a first look at their shiny new training ships.

All are to receive ten-weeks primary instruction in civilian flying schools affiliated with the U. S. army, another ten weeks in basic schools at Montgomery, Ala., and Macon, Ga., and finally ten weeks in advanced training units of the army at Maxwell Field, Ala., Barksdale Field, La., Selma, Ala., and Albany, Ga.

At Arcadia, Fla., in Florida's cattle country, the eyes of ninety-nine Britons lighted when they glimpsed the new \$300,000 Riddle Aeronautical Institute, with its lines of trainer planes, modern barracks, swimming pool and tennis courts.

"The Royal Air Force will turn green with envy when it hears about this," exulted one cadet as he examined his quarters.

The Lakeland, Fla., School of Aeronautics, where about 100 Britons detained, undertook to make them feel at home with food and other things to which they are accustomed in England.

**Gigantic Army Bill**  
(Continued from Page 1)

companies which might refuse for as long as ten days to "respect and abide by" the board's recommendations. Adopted by a 192 to 65 standing vote.

**Final Passage 350 to 1**  
The rollcall vote on final passage of the legislation, which sent it to the Senate, was announced as 350 to 1, with Rep. Marcantonio (AL-NY) the lone dissenter.

At the last minute, the House heeded pleas by defense officials and defeated an amendment by Rep. Engel (D-Mich.) to prohibit use of cost-plus-fixed-fee contracts in the army's new construction program. Inserted Friday by a teller vote of 98 to 13, it was eliminated today by a vote of 179 to 175. Defense officials said it would hamper the army procurement program.

During the debate, some members protested that the anti-strike amendments would work an injustice to the majority of labor and most attributed strikes to a small minority.

The huge appropriation carried funds to maintain a 1,418,000-man army for the fiscal year beginning July 1 and \$2,790,890,785 for 12,856 additional warplanes of various types.

Also included were funds for strengthening seacoast defenses and development of Atlantic island bases.

**Two Amendments Defeated**  
Two similar anti-strike amendments, both by Rep. Starnes (D-Ala.), were defeated by votes of 20 to 134 and 99 to 119. He proposed to prohibit payment of any of the funds to workers who had participated in a defense strike.

The third, by Rep. Smith (D-Va) was a four-point proposal to forbid payment of any of the appropriation to a union man who strikes for a closed shop, or jurisdictional questions or by intimidation or violence seeks in any way to impede the defense program. It was defeated by a 143 to 89 teller vote.

During the House debate, Rep. Randolph (D-WVa) said the people would commend Congress if we show that we will not allow a segment of labor to destroy our defense efforts; it is time for Congress to stand together."

**Tydings Favors**  
(Continued from Page 1)

lative of the employer and a representative of the public would decide the dispute.

"I do not believe, certainly as an initial step," he said, "that it is necessary for the government to take over the industrial plants. In order to eradicate the strike difficulty."

"I do not believe they should be taken over, unless the employer has been in the wrong. The taking over of industrial plants is exactly what the Communists and the totalitarians want the government to do."

**Blames Communists**  
Tydings attributed industrial unrest in part to "our one-sided labor policy" and to "the government's tacit approval of the sit-down strikes, and of governmental codding of Communist labor agitators during recent years."

"In the face of strike after strike after strike," he declared, "the federal government has sat supinely by, applying a little salve here and there, asserting that the strike menace was not serious x x x"

He declared also that often the national labor act was "more of an aid to the professional agitator than it is to the laboring man."

## British Advance

(Continued from Page 1)

preparing to throw their shock battalions into the struggle.

**Nazi Troops Concentrating**  
Reports circulated that big German forces were being concentrated on Rhodes and other of Italy's Dodecanese islands in the Mediterranean and that troop transports already were steaming from occupied Greece.

There were signs, too, that the Nazi technique of parachute attack which had been so successful in Greece already was functioning in Syria, for British informants reported that 183 such parachutists—including a colonel commanding the Seventh parachute division—already had been captured. Two German planes were reported shot down. The information was somewhat roundabout, however, and was attributed by the British to Free French sources.

Vichy's "self" aside from claiming that its forces in Syria and Lebanon, resisting fiercely, had destroyed a number of British armored cars and two British planes, reported that they had dynamited the Mediterranean coastal road from Palestine through Tyre to Beirut.

The British land thrust, intended to prevent in Syria a full scale German occupation which would put Suez and all other British imperial positions in the middle east in imminent peril, went forward in three sections.

**Village Occupied**  
The first and most active force was that which advanced northward from Tyre. North of that biblical landmark and beyond the river Litani, which at that point turns westward and flows into the Mediterranean, the village of Meerdjayoun was occupied.

The second thrust was toward Damascus from the Trans-Jordan; the third wound up the storied valley of the Euphrates from Iraq toward the outpost of Their-Ez-Zor, which squats in the eastern Syrian desert some 250 miles to the northeast of Damascus.

While all this activity had given the British the jump and apparently at least a momentary edge in the battle, all Britain awaited tonight the answer to two grave questions:

Whether Hitler would choose to make a major flight of it when he is apparently at a strategic disadvantage.

**Vichy Plans Unknown**  
Whether the Vichy government was yet ready to put the whole French nation into the war on the Axis side.

The precise strength of the RAP available to resist a large-scale Axis air borne troop movement was not stated, but informed persons pointed out that absolute air domination by the Germans—such as they had over Greece and Crete—was out of the question.

The German command's past record of taking the initiative only where air control was assured led some sources to suggest that Hitler might be preparing to strike not at Syria itself but elsewhere in the same general theater—possibly from Italian Libya against Egypt.

The current nightly British bombings of Bengasi harbor in Libya are generally interpreted as an urgent British attempt to keep the Axis from shipping tanks and supplies direct to Libya in preparation for a renewed drive to the east.

**U. S. Production**  
(Continued from Page 1)

European plants—such as R. K. Evans, sturdy, gray-haired General Motors vice-president who manufactured automobiles in Germany from 1926 to 1936 and who showed me through the Allison airplane engine factory in Indianapolis—expressed even more confidence in American production capacity than the others.

"The Germans make good machines," Evans said. "And they have a seven year start on us. But we can match them at anything that's made."

Evans said Allison was producing 400 engines a month now and aiming at 1,000 a month by early next year.

"How long would it take us to double that?" he continued. "Well, if everything went our way, I should say about 300 days."

**Production Prediction**  
Here are some other production predictions by business men with whom I talked and whose plants are turning out, or getting ready to turn out, the flood of war materials:

Frederick B. Rentschler, chairman of United Aircraft—"By this time next year the American aircraft industry will be producing ten million horsepower a month in engines. The best estimate we have on German production is five million horsepower."

Charles J. Hardy, elderly president of American Car and Foundry—"Right now we're delivering ten light tanks a day. By fall, we'll be making twenty a day and a considerable amount of armor plate."

**Chrysler Plant Busy**  
K. T. Keller, president of Chrysler Corporation—"We've finished 40,000 trucks and we've got 30,000 to go. They're right down our alley. On these anti-aircraft guns that the navy seems to be in such a hurry for we'll be making 300 a month. We can get up to twelve medium tanks a day."

Edsel Ford, president of Ford Motors—"If the army wants them, we can build a thousand of these blitz buggies a day. We can make up to 800 Pratt and Whitney engines a month with the plant we're building now. The consolidated bombers? It will take us about a year to finish the plant. Then there will be ten a day coming out of the plant here and the assembly plants."

## Frankenstein To Aid Government In Filling Jobs

### CIO Organizer Calls Aviation Company Trouble "Wildcat Strike"

LOS ANGELES, June 9 (AP)—Richard T. Frankenstein, CIO organizer for the aviation industry, said tonight his organization would cooperate with the government in supplying skilled workers needed to return the strike-bound North American Aviation Company's plant to full schedule operations.

Frankenstein yesterday called the North American work stoppage a wildcat strike and suspended the union's local officers from their posts.

"We shall bargain for those who return to work," he said, "and those who do not will be replaced."

"I have been notified by representatives of our federal government that the United Automobile Workers of America, CIO, is recognized as the official collective bargaining agent at the North American plant and that all negotiations will be conducted with myself and the officially recognized committee which will be named to replace the suspended officers of Local 683 under the administrative setup of the local."

"I want to urge all workers at North American Aircraft who have not yet returned to work to do so now."

Frankenstein declared that in the event of a shortage of skilled workers at the plant his organization would cooperate with the government in recruiting them from other plants.

**Way Paved for**  
(Continued from Page 1)

by the day were not in dispute and remain in effect.

Under the old wage scale, prevalent before the recent work stoppage, coal miners who are paid by the day received \$6 in the north and \$5.60 in the south.

Another point which was in dispute involved the so-called "reject" clause under which wages of certain southern miners were determined by the amount of "clean and marketable" coal which they produced. Davis said this had led to "abuses" since there was no uniformity in discarding so-called dirty coal before the amount of pay tonnage was determined.

**Seek to Eliminate Abuse**  
To eliminate these abuses, the board recommended abolition of the reject clause from future labor contracts. It urged that tonnage rates be paid on the coal measured before cleaning and according to methods to be worked out in district conferences.

In their acceptance of the proposals the northern operators stipulated the reservation that if the recommendation covering the "reject" clause meant elimination of the abuses of the old practice they accepted it but if not, they could not accept.

Davis said this apparently was based on a misunderstanding of the board's intent, which was to eliminate the abuses, and that it did not constitute a barrier to acceptance.

The southern operators said that they denied both the statements of fact and the conclusions reached by the board in its recommendations but "since these negotiations have been in progress the president of the United States has proclaimed a state of total national emergency, and we will do everything in our power as patriotic citizens to further our defense program."

**Ready To Sign Contracts**  
Therefore, in this emergency we have decided to accept your recommendations and are ready to immediately apply them to our contracts with the United Mine Workers of America," the southern group said.

Among other recommendations made was that a vacation with pay be granted, to cover the period over the Fourth of July but that no vacation be given this year because of the necessity for coal production.

Dates for resuming negotiations between the mine workers and the northern operators and the mine workers and the southern operators were not announced immediately but Ezra Van Horn of Cleveland, a spokesman for the northern camp, said regarding completion of a new contract to run until March 31, 1943:

"I think it will be all closed up this week."

**Tugboat**  
(Continued from Page 1)

the strike. Firemen, deckhands and cooks reported for work but the tugs were kept tied up when the officers failed to appear.

While G. H. Poudet, head of the Baltimore Association of Commerce's Export and Import Bureau, began an investigation into the strike, the tugboat owners' association called a meeting to consider the situation and promised a statement later on its stand.

**14 Tugs Tied Up**  
The strike tied up fourteen tugs of the Curtis Bay Towing Company, six of the Atlantic Lighterage Company, four of the Baker-Whiteley Coal Company, four of the Chesapeake Lightering Company and two of the A. J. Harper Company.

The United Fruit Company, first to feel the effect of the strike, was unable to obtain railroad car floats for unloading bananas and was forced to hire a fleet of trucks to rush the perishable cargo to the freight yards.

## INTERPRETING THE WAR NEWS

By KIRKE L. SIMPSON  
Associated Press Staff Writer

Tremendous stakes for Britain and her Axis foes alike are involved in the war in French mandated Syria and Lebanon; but for once the military odds are with the British and their "Free French" allies.

In seizing the initiative the Allies have taken a leaf from Hitler's own book. London, not Berlin, struck first, with bright prospects of a quick victory which could powerfully strengthen British control of the Eastern Mediterranean.

Vichy reports bitter resistance to the Allies by French Colonial garrisons loyal to the Petain-Darlan regime. British and Free French accounts speak of half-hearted stands against the triple-fronted Allied attack, and of increasing native and French desertions to join the Free French standard.

Quick Allied penetration to within two score miles or less of Beirut and Damascus, capitals of the two mandated territories, tends to bear out the Allied version of the fighting. Surrender or capture of either would open both coastal and interior routes northward. It would permit the two Allied columns driving from Palestine and Trans-Jordan to make an ultimate junction with the force thrusting northwestward from Iraq up the valley of the Euphrates.

It appears possible that two other Allied thrusts westward from Iraq toward the Lebanon-Syrian coast are also impending. Good bus routes roads across the Syrian desert offer possibilities of a five pronged assault that could overrun all Syria east of the main north-south coastal range.

With heavy British ships reported to be lying off both Beirut and Tripoli, threatening bombardment unless both are given up, quick collapse of French resistance in that area is a distinct possibility. That would put much of the Lebanon-

however, to have made it plain that he still stood by his public statement last week in which he declared the Vichy government apparently was becoming an "instrument of aggression" and adopting a policy "utterly inimical" to the interest of other nations.

The secretary of state was reported to have explained that the American government could only take a critical view of French policy in the light of utterances by the Vichy leaders themselves.

The French ambassador's effort to justify French defense of Syria against the British was said to have brought the reply from Hull that Syria was not defended against the Germans when they used air bases there for attacks on British forces in Iraq.

**British Squadron**  
(Continued from Page 1)

carriers or armored cars to tanks—were reported demolished by artillery and aerial bombardment while troops defended the mandate soil "foot by foot."

Vice Premier Darlan will broadcast tomorrow night.

Reuters, British news agency, relayed a round-about report that the British already had shelled Tripoli, terminus of one branch of the pipeline from the Mosul oil fields of Iraq.

This report also said the fleet had gone into action at various other points along the Lebanese coast.

It was possible that the British ships had not yet opened fire on any Lebanese city but were standing by pending initiation or outcome of demands for surrender.

**Report Road Blown Up**  
One unconfirmed report was that defenders of Beirut had blown up the coastal road leading from Haifa, Palestine, through Acre and Tyre to the Lebanese capital, hoping to block or hamper combined naval and sea action along the coast south of Beirut.

A British landing party put ashore yesterday south of Beirut was reported rounded up.

A French-British naval engagement near the Lebanese coast was reported officially to have resulted in grave damage to a British destroyer. The French did not say what sort of naval forces they used.

A Beirut communique said two British warships were seriously damaged off the coast north of Tyre in "brilliant action by two of our destroyers."

## \$885,905,000 Cut In Relief Voted By House Group

### Appropriations Committee Also Favors WPA Restrictions

WASHINGTON, June 9 (AP)—reduced relief appropriation of \$885,905,000 for next year was approved today by the House Appropriations committee which voted also for retention of present restrictions on WPA, such as that forbidding employment of aliens.

The total was \$95,000 below what President Roosevelt recommended for the twelve months beginning July 1, and was thirty-five per cent lower than the current fund. The committee said the cut would necessitate a reduction in WPA employment from an average of 1,300,000 this month to 941,315 in July 1, August.

In addition to trimming WPA, request the committee allocated \$50,000,000 of the total to the agriculture department for extension of the food stamp plan, and called for a \$10,000,000 cut in the \$50,000,000 fund now available to WPA for paying wages higher than usual to workers on defense projects.

But at the same time, the committee gave "hearty commendation" to continuation of the WPA defense training program which it said had enabled more than 30,000 workers to fit themselves for private jobs.

President Roosevelt and Howard O. Hunter, WPA commissioner, proposed a series of revisions in the relief law, including removal of the ban on employment of aliens and the requirement that persons on the rolls for eighteen months be dismissed to make room for others.

Rejecting these suggestions, the committee said: "The WPA is not a permanent service. It is an emergency activity for the temporary relief of unemployment. Every sound reason to reduce it and every restriction that will operate to prevent abuse should be availed of."

**Goucher College To Be Enlarged**

BALTIMORE, June 9 (AP)—Judge Emory H. Niles, president of the board of trustees of Goucher College, announced at final exercises today plans for immediate construction of a five-building unit at Towson, Md.

Dr. Virginia C. Gildersleeve, dean of Barnard College, told graduates and guests at commencement exercises that if "Nazi domination overwhelms our country, then we, leges like Goucher and Barnard, our sisters could no longer exist."

The erection of new buildings at the Towson tract will result in complete removal of the college from its North Baltimore location.

**Three Survivors**  
(Continued from Page 1)

third struck and the crew and passengers took to life boats.

He said the raider came alongside and picked up the survivors and then sent a party aboard the Zeehan which took off a quantity of her cargo and "blew her up." The passengers, he said, were held on night on the raider then placed aboard the freighter "Dresden" which accompanied her. They were debarked at St. Jean de Luz, occupied French port.

## Camp Life, Both Army and Civilian, Help to Physical and Mental Health

By LOGAN CLENDENING, M. D.

This year as never before in the history of our country a lot of people will be in camp. About a million more or less—adults in the armies of the United States will be in camp and if past records are any criterion, about two million children, boys and girls, will be in summer camps. Both groups will be training for the duties of life; one group for possible emergency and the other for emergencies that may rise some day in the future.

There is no doubt that many mothers and fathers are perplexed as to whether camp life for the "small fry" away from parental care, among strangers will be a good or bad experience for the youngster. The experience is that it is always a good thing for them.

**Good Discipline**  
I know of nothing more wholesome than the attitude of a summer camp for children, whether they come from homes where money is plentiful or whether they come from homes of the under-privileged. In fact, I think the mingling of the two groups is one of the best parts of the experience, and I am inclined to believe that at this time

the men who are in military camps are probably doing better because many of them in the period between the last war and this one have been subjected to the discipline of summer camps for youngsters.

It is not necessary today to sell the idea of the value of the discipline of camps. The less of a problem a child is at home, the more good camp does him. He learns things about human contacts, about self-reliance and about nature that he will hardly ever learn in any other way.

What I feel parents should know is the great improvement that has been made by directors of camps to safeguard the physical health of children during their camp residence. A certain number of epidemics are bound to occur but this is merely a form of vaccination which nature will impose upon everyone who goes out into life—a form of vaccination which medical science has no means of instituting. By improvements in preventing epidemics which might make camping dangerous, I refer to the safeguarding of water supplies and of food. Contaminated water and contaminated milk have been the cause

## CALLS FOR MORE BILLIONS

Stacy May  
Stacy May, of the Bureau of Research of the Office of Production Management, tells the Senate Defense committee that America's armament program must be doubled. He proposed a forty billion dollar program instead of the present twenty billion dollar program for the coming year.

of the great epidemics in the past, but the causes of these are now entirely understood and all good camps can control them.

### If in Doubt, Ask Doctor

The effect of camp life upon under-par children is, with few exceptions, remarkably good. One sees a little weak fellow start out in the summer for camp and the very fact that everybody there is leading an active life helps him to come back brown and husky. Of course, when any doubt exists, it is important that the parents, the family physician and the camp director should all confer in order to make a decision as to whether any given child is likely to benefit from camp discipline.

## Completely Air Conditioned Rosenbaum's

Father's Day  
June 15th

### Still Time

to take advantage of our Father's Day photograph offer. No... we won't have them for you for Father's Day... but shortly after... and you still effect the great savings. June 14th is the last day of this offer.

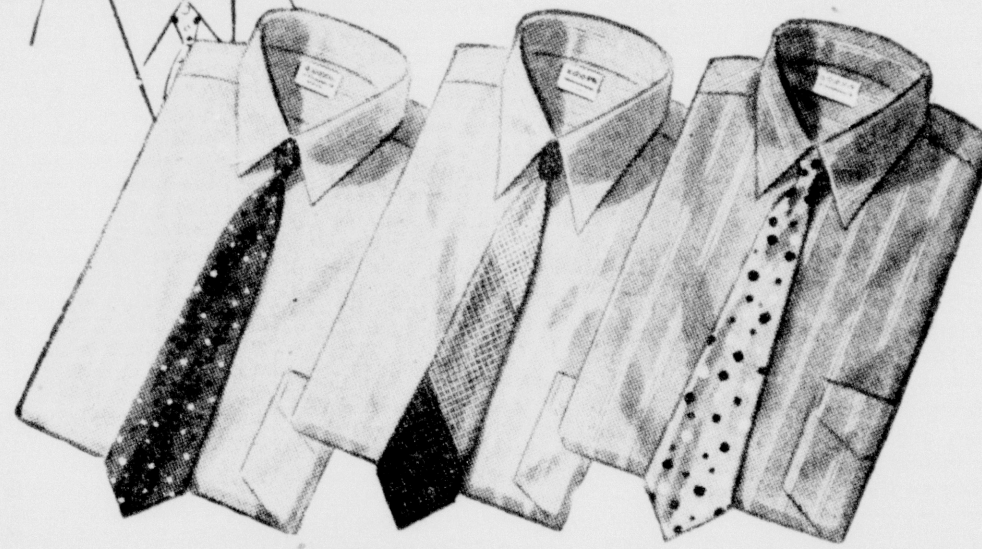

\$1

Street Floor

## Completely Air Conditioned Rosenbaum's

Pop's A Practical Fellow... So  
Give Him A Practical "Arrow" Gift!

## Be "COOL" TO DAD WITH SOME COOL ARROW'S "BONAIR"

Here's the coolest proposition ever made into a good shirt! The self-same shirts Dad admired in the current issues of "Life" and "The Saturday Evening Post"... and he's been secretly hoping you'd come thru with them on Father's Day... so why don't you! He'll go for the way the open mesh seems to actually air-condition his body... but don't get us wrong... for though they're light in weight... they're regular bears for wear! And... Dad knows the comfort he's assured in the Arrow collar... so what are you waiting for... hop down to Rosenbaum's pronto and get Dad (and yourself) some of Arrow's "Bonair" Shirts. Deep blue or brown, and white...

\$2

### AND SOME "BONAIR" ACCESSORIES

Harmonizing Ties in colors "made" for the Bonair shirts. All tailored the Arrow (perfection and long wear) way... \$1

And Handkerchiefs that Dad can use as he will... either for "show or blow". Fine long wearing yarns... 35c

And Shorts... for you know how Dad can't have too many of these for these hot Summer days ahead of us... 65c

Rosenbaum's Arrow Shop — Street Floor

## ON SALE TUESDAY

While These Limited Quantities Last. No Mail or Phone Orders

Regularly \$1 Boys' Wash Shorts 79c

Sanitized-shrunk fabrics in gay stripes and checks. Pull cut, nicely tailored. 6-14.

## Labor Peace Formula Better than Seizure

CONGRESSIONAL LEADERS have been informed, according to Washington dispatches, that President Roosevelt has authorized such modifications in the controversial property-seizure measure as would limit his authority from unlimited confiscation of any or all property to that of plants closed or threatened with suspension by strikes or other labor troubles.

That is a step to the good, forced, it is pertinent to note, by a tremendous outburst of public protest. Pending events, however, seem to indicate that the executive already has the necessary authority for the limited purpose, but if additional legislation is necessary to avoid defense production delay and obstruction, and it is palpably apparent, it should be provided.

Judging from the proposals now under consideration in Congress, some added legislation appears to be forthcoming, but it would be far better if some formula for adjusting labor disputes with avoidance of interruptions other than outright seizures could be found. Seizures in the end would be a far worse blow to labor than the other course and by them labor would lose much, perhaps the most, of the gains it has achieved in recent years. It is a pity that so many labor leaders apparently cannot realize that.

Nevertheless, assumption of control by the government and use of the army in affording protection to the workers seemed to be the only solution of the strike difficulty at the strike-bound plant of the North American Aviation Company's big plant at Inglewood, Calif., where some \$200,000,000 in defense plane contracts was halted.

Herein, the president acted firmly, courageously and properly. It is to be hoped that this summary action will prove a salutary influence in the grievous situation that has caused so many defense production stoppages.

## A Lesson That Must Be Learned

SMUGGLY AND COMPLACENTLY, the New Deal administration is following the same trial and error method in our national defense program as did Wilson in 1916-1917.

But Wilson, after sixteen months of fumbling, hit on the solution. On March 4, 1918, he named Bernard M. Baruch sole head of the Defense board, and production soared. Why haven't we learned from this experience? In 1917, there was a good excuse for fumbling at the start—we were trying something new. Today there is no excuse for similar fumbling.

Our national defense requires the full-time work of one man with complete authority to get things done. Yet today in Washington defense agencies come and go in a steady stream. They pile haphazardly one on another. And always there is the same outstanding defect in the whole jumble. Nobody but the president has the authority to get results—and he hasn't the time.

The New Deal has had more than a year to get the defense program going. How many more years will be needed to drive home the simple but vital point that control of all the various commissions, agencies and regular departments must be delegated to one man for the all-out administration of our defense effort?

## Puzzles about Shortages And Surpluses

TWO RECENT PROPOSALS, one from Washington and the other from London, may have disturbing connotations for people who remember the days of the World war. In all probability both were made with the purpose of conditioning the minds of Americans to what may come in the not distant future.

Harold L. Ickes, secretary of the Interior, oil administrator, etc., has suggested that gasoline and electric power facilities on the eastern seaboard be placed on the priorities list. With gasoline it isn't so much a shortage of the motor fuel as of transportation. Fifty tankers have already been shifted from the regular distribution service to the carrying of supplies for Britain from Gulf of Mexico ports to the Atlantic seaboard.

The defense program is also putting a heavy strain on rail tank cars and trucks. This difficulty of getting gasoline and fuel oil from the oil fields to the East has been reflected in increased prices. Mr. Ickes goes so far as to warn that gasless Sundays will have to be adopted unless new transportation facilities can be provided.

Although it seems strange that there should be a shortage of electric power in the United States, apparently a pinch is being felt in the Tennessee valley, with aluminum plants being hit the hardest. The secretary of the Interior has a plan to meet this emergency. He would put a ban on night baseball and on fancy electric signs and in addition proposes that daylight-saving time be made nation-wide.

Even more of a surprise was the plea made by Lord Woolton, British minister of food, that the people of the United States eat less so that surpluses can be sent to England.

many weeks ago that Prime Minister Churchill announced voluntary reduction in food imports to release cargo space for war materials. Yet in spite of the continued German submarine and bomber attacks on shipping carrying war supplies to England, the British food minister asks not for planes and guns but for milk and cream, sugar, cheese, canned salmon and canned meat.

It must be inferred that the food situation in England is growing serious. But why should it be necessary for Americans to reduce their consumption of these products? Americans have been told for ten years about agricultural surpluses and have watched the food stamp plan distribute surplus stocks to relievers. There have been drink-more-milk campaigns not only to help the dairy farmers but to improve the national health. Is all this to be scrapped?

The stark fact now seems to be that the United States has no great surpluses in the products England wants. If huge shipments of these items are sent abroad, there will be a shortage, instead of a surplus, in the United States. That, of course, could be more easily remedied here, although it would occasion temporary inconveniences and price difficulties.

## Legislation Needed For Handling Aliens

CONGRESS should promptly enact a bill introduced by Representative Hobbs, of Alabama, giving the federal department of Justice needed authority to cope with the problem of aliens who are illegally in this country.

The proposed measure would create an administrative board to decide whether aliens legally but not physically deportable should be interned or "paroled." Decision in each instance would depend on the defendant's "fitness to be at large in our society under present conditions" and would be reached after hearings protective of individual rights. Under a parole verdict the activities he must avoid would be specified.

The department has found that, through circumstances created by the war, the only law through which it may deal with the prisoners it has been rounding up is practically unenforceable. They are held under deportation proceedings, yet under present world conditions they cannot be deported.

This handicap has been set forth in a compilation lately made by the department. Of 8,091 deportation orders outstanding, 6,249 could not be enforced. In 3,947 of the cases there could be no deportation because the aliens are not acceptable to their native countries, and in 2,302 other cases transportation was impossible or unavailable. It seems likely that of hundreds of aliens lately apprehended scarcely one will be found physically deportable.

Attorney General Jackson has pressed for prompt passage of the law and it should be passed, as it is obviously needed and is, moreover, a fair and even a generous measure.

## Something Different For the Farmer

THE NEW DEAL BRAIN BOYS never seem to run out of ideas. They have a solution for everything. Recently the approaching dearth of farm labor, due in large part to the migration of workers into industrial centers, has created some concern.

Presto, assert the New Deal boys, that's an easy one. Why, just let the farmers put lights on their tractors, work at night and help out neighbors short of help. But that is not the way the New Deal leads treat labor.

Oh no! They contend we must not sacrifice what they call "our social gains." They insist that any industrial worker who stays on the job more than forty hours in any one week must be paid an overtime bonus—as much as double time, in some instances. Likewise they encourage labor to get higher wage rates while the getting is good under threat of paralyzing the national defense effort.

Working from dawn to dusk six days a week is not enough for the farmer. He must now start working a night shift, and without any premium for overtime. But you are an enemy of "social gains" if you dare suggest a longer work week—even eight hours more—for industrial employees. Such is the New Deal philosophy of the more abundant life.

Castor oil has been used as medicine for more than 4,000 years, according to a medical item. This proves, insists Junior, that there never was such a thing as the "good old days."

By MARSHALL MASLIN

I know a man who traveled round the world for two years and visited 37 countries. When he came home I couldn't get anything out of him except facts about the food he ate in this place or that. . . . But food IS important.

I like the lovely reflection of neon lights on wet black streets at night. . . . No painter ever put that on canvas to his heart's content.

I don't believe wet feet can give you a cold.

I'm never bored as long as there's something near to read, even if it's a ten-year-old newspaper. . . . Or perhaps, especially a ten-year-old newspaper. Old news comes pleasantly alive; all the old horror, shock, anger, uncertainty and other strong emotions fall into historical perspective against the moving backdrop of time.

But I wonder how today's ghastly news will seem to us when we re-read it in 1951.

Imagination has wonderful powers, but I defy anyone who has not experienced it to imagine that strange drained-out languor that follows an attack of the "flu."

I saw seven youngsters playing marbles the other day. . . . And despite all I could do to prevent it, it occurred to me that none of them were as good shots as WE were 30 years ago.

As a man grows older he is inclined to exaggerate both the pleasure and the pain of his childhood. . . . Or I know I do.

I put too much sugar in my coffee. . . . I have been told by many a coffee or tea expert that you ruin both drinks by putting sugar and milk in them. . . . I shall continue to ruin them—to my own taste.

Every man should earn his living; if he doesn't earn it, it isn't a living. . . . And it's not correct to say that honesty is the best policy. If it's a "policy," it's hardly honesty.

## Parachute Work In Army Is Good, Gen. Johnson Says

By GEN. HUGH S. JOHNSON

WASHINGTON, June 9—Most of our officers say that our army was the first to experiment with and develop at least the principles of parachute attacks.

The story of some line officers is that they proved the tactics, including the transportation of light cannon and cars, that accredited German observers watched it, took it home improved it, gave it also to the Russians—and that our general staff filed it for reference. There is something of this history in nearly all American development of new weapons—the submarine, repeating rifles, the airplane, armored ships, the caterpillar-tread making possible the tank, smokeless powder and several less conspicuous instances.

Well, we are catching up fast and in some things going ahead. While it is just getting a good start our organization, training and equipment of parachute troops are very encouraging.

Rigorous Selection  
In the first place the men are chosen as a football team is selected. The physical requirements are far above those for any other troops. The men must have completed at least one enlistment—trained soldiers at the outset. Even after this rigorous selection, there is a preliminary period of ninety days and a further weeding-out in practice.

They go into a period of physical conditioning as severe as that of any professional boxer—no liquor, not even cigarettes or tobacco except at long intervals and then for only a day, and that is merely to offset the danger of being trained too fine.

The idea is that each one of these armed athletes must be at least the equal of an infantry squad.

They carry tommy sub-machine guns and a small armory of auxiliary weapons. They are accomplished grenadiers, educated not only to expert marksmanship but also trained and equipped for all the arts of demolition by explosives—to destroy bridges, rails, roads and military obstacles. They also must have an officer's background knowledge of at least minor tactics to recognize key points at a glance and know what to do about them.

A Dangerous Service  
It is a dangerous service contributing more than its share of crippled ankles and broken legs. This, I am told, is not because of anything especially hazardous in the ordinary "belling out" from the usual high elevations which is fairly safe, except for misadventures. But these boys don't jump from the "usual high elevations." Their object is to shove off from as close to the ground as possible.

A man dangling from a parachute slowly floating down from a great height is about as helpless as a caterpillar in a cocoon. His coming is advertised. He makes a lovely swinging target for enemy airplanes and almost as good a one for handy wing-shots on the ground. Also, to be most effective, these boys must be spotted, as a surprise, on the map at just the points where they are most needed and not sprinkled all over the landscape. For these reasons the idea is to drop them as close to the ground as possible—as low as 200 feet or, it is hoped, even lower.

In Development Stage  
This attainment is in an experimental or development stage which probably accounts for the injuries. These parachutes are different in that they have no rip-cords for the trooper to pull. There is no time at low altitudes to count "1-2-3." The parachute is opened immediately by an attachment to the plane and sometimes conditions are not right to break and cushion the fall enough to prevent a disastrous bump.

These new troops are becoming a prized, proud corps de elite—like aviation aces or submarine suicide crews. The service is voluntary and eagerly sought. It is about the highest individual responsibility to be attained by an enlisted man.

HEADS OSTEOPATHS

The Hess mystery is much more exciting to the public than the case of Sir Robert Vansittart is hardly less interesting to world capitals—including Berlin.

Those who never heard of Sir Robert will not be much impressed to learn that his "case" consists of nothing more dramatic than the announcement that he is retiring at the age of 60.

But just as the world scans the Hess theatrical disappearance from foreign policy, and particularly in anti-German as well as anti-Nazi policy. When his policy was attacked in Commons, Churchill defended it.

Diplomats are wondering why he is being dropped, or at least allowed to go, now when British diplomacy faces the gravest test in empire history. Certainly not because he is 60, when Churchill was 66.

Italy has announced plans for colonizing 80,000 families in Libya during 1942.

Little Faking Required  
In the good old days of vaudeville and medicine shows, the hypnotist was a great attraction. The gallery gods looked on in awe, at the phylacteries of the dress code looked on in feigned skepticism while "The Professor" kept stooges through their paces. Few of the audience realized that the feats were not at all remarkable, and that little or no faking was required except where the element of humor was introduced.

Tragedy stalked the stage of small theater in New Jersey some years ago when the subject came out of his trance too soon and, presumably as the result of a peculiar experiment in which a hypnotist stood on the abdomen of the subject whose body was raised suspended between two chairs.

Many scientists are wary of hypnotism, taking the ground that it stimulates neurotic tendencies, excites abnormal curiosities and gives the false impression that hypnosis permits the outside world to operate upon the department of others, which is contrary to truth.

## STUCK IN HIS OWN FLYPAPER

## America Is Still Spiritually Distressed Over War Dilemmas, Sullivan Says

By MARK SULLIVAN

WASHINGTON, June 9—The spiritual distress of America is caused by several dilemmas. Sometimes dilemmas can be solved by reasoning, by weighing and reflecting. This may or may not be possible with the dilemmas that now confront America. In any event it may help to state the principal dilemmas.

Dilemma number one: The contrasting horns here are (A) we most aid to Britain. And (B) we wish not to enter the war.

Now we just cannot have both these wishes. Utmost aid to Britain would include going to war.

The phrase I have used is "utmost aid." Some of our leaders use words even stronger, more inclusive, President Roosevelt has used the word "all-out." That same word was used by Mr. Wendell Willkie in his Chicago speech Friday night. He said he urged "all-out aid to Britain" and "every possible support to Britain."

Now in that speech as a whole Mr. Willkie made it clear he did not advocate entering the war. Yet the phrases he used would include entering the war. I imagine Mr. Willkie is quite clear in his own mind. I assume he means, at short of war. He does not mean that America should enter the war.

Public Not Helped  
But the public, not trained in legal reasoning, not experienced in discriminating choice of words, is not helped out of its own dilemma, but is confused further by such phrases as Mr. Willkie uses, and also Mr. Roosevelt.

Incidentally, the British public must be even more confused. When two outstanding political leaders in the United States, Mr. Roosevelt and Mr. Willkie, use such words as "all-out aid" and "every possible support," those phrases are cable to Britain. They are printed in British headlines. The British public gets the idea that the United States, to help Britain, will enter the war. Presently the British public will wonder why we are not in, will begin to feel reproach for our not being in.

Dilemma number two: (A) We wish to give some seven billion dollars worth of supplies to Britain—we have enacted this in our lease-lend law and we are making the goods. But (B) we wish not to run British foreign policy than any man alive.

Even before 1930, when he was named permanent under secretary of state for foreign affairs, Sir Robert was the power behind the passing foreign ministers; and after 1930 even more so.

When he refused to swing to a pro-Hitler policy, the Chamberlain-Hallifax powers early in 1938 kicked him out—or rather, since they could not afford a scene, they kicked him upstairs to a new and harmless title of "chief diplomatic adviser."

But since the fall of Chamberlain he has been a potent leader in foreign policy, and particularly in anti-German as well as anti-Nazi policy. When his policy was attacked in Commons, Churchill defended it.

Diplomats are wondering why he is being dropped, or at least allowed to go, now when British diplomacy faces the gravest test in empire history. Certainly not because he is 60, when Churchill was 66.

Italy has announced plans for colonizing 80,000 families in Libya during 1942.

Tragedy stalked the stage of small theater in New Jersey some years ago when the subject came out of his trance too soon and, presumably as the result of a peculiar experiment in which a hypnotist stood on the abdomen of the subject whose body was raised suspended between two chairs.

## Hypnotism Has Some Good Uses In Treating Ills

By EDWIN C. HILL

A well-known hypnotist, Andrew Salter, tells us that we can hypnotize ourselves by restoring to a soothing vocal accompaniment something like this: "I feel swell. I feel perfectly swell. I never felt better in all my born days. I am getting sleepy—so sleepy, so very, very sleepy. I am asleep now, but wake me early, mother, dear."

Hypnotism is a very old method of inducing artificial sleep. It is used, also, in restoring memory to victims of amnesia. The other day in a New York hospital, a hypnotist mesmerized such an one by giving him his name and address. While the name he gave corresponded with the initials on his cuff-like the address happened to be that of the Cathedral of St. John the Divine.

Used in Medicine  
Hypnotism is not uncommon medicine and as a treatment ease the pain of childbirth. The method there is for the doctor to fix his glance on the patient's face, repeat steadily to her that she is falling into a deep, deep sleep. "I shall count ten and you will be asleep. You only want to sleep. It is in your eyes. You are sleeping quite sleep." The procedure takes ten minutes.

Hypnotism is neither mysterious nor dreadful, as some believe, a belief arisen from the liberal imagination which writers have taken with a scientific subject, mention hypnotism to the average person conjures up in his mind a glittering-eyed demon in the guise of a man, Svengali in the flesh, who goes about looking for victims upon whom he may impose his wicked will.

Persons have been convicted and sent to prison for using hypnotic influences on others to compel them to commit crimes or to swindle victims out of their money. They have been defenses of "hypnotic influence" put forward by the accused in homicide cases in this country. However, physicians generally hold that a person in an artificial sleep will not carry out any suggestion which is hostile to their normal instincts. In other words, only a person with a character prone to murder would attempt such a crime under a hypnotic spell.

Little Faking Required  
In the good old days of vaudeville and medicine shows, the hypnotist was a great attraction. The gallery gods looked on in awe, at the phylacteries of the dress code looked on in feigned skepticism while "The Professor" kept stooges through their paces. Few of the audience realized that the feats were not at all remarkable, and that little or no faking was required except where the element of humor was introduced.

Tragedy stalked the stage of small theater in New Jersey some years ago when the subject came out of his trance too soon and, presumably as the result of a peculiar experiment in which a hypnotist stood on the abdomen of the subject whose body was raised suspended between two chairs.

Many scientists are wary of hypnotism, taking the ground that it stimulates neurotic tendencies, excites abnormal curiosities and gives the false impression that hypnosis permits the outside world to operate upon the department of others, which is contrary to truth.

## Using the Alphabet

From the Charleston, W. Va., Daily Mail

To the lush crop of ever-growing alphabetical agencies of the federal government that blossomed out the more or less normal years of pre-emergency New Deal era, must be added many new combinations of the alphabet representing the many new defense bureaus.

A partial survey of the formidable array of the abbreviated names of the agencies dealing with defense reveals the following:

OEM—Office for Emergency Management, top holding company of the defense effort. OPA—Office of Production Management, the Knudsen-Hillman outfit. OGD—Office of Civilian Defense, La Guardia's new division. SDU—Special Defense Unit, the department of justice. OPA—Office of Price Administration and Civilian Supply, headed by L. Henderson. CND—Council of National Defense, the cabinet policy group. NDRC—National Defense Research Committee, the inventors. EC—Export Control, headed by Lieutenant Colonel Russell L. Maxwell. NDMB—National Defense Mediation Board to settle strikes. FSA—Federal Security Agency. That's Paul McNutt. Not strictly a defense agency but its division, like the WPA, CCC, and NYA, have a defense work. DHC—Defense Housing Co-ordinator, also the defense homes Corp. OGR—Ogre if you like, the Office of Government Reports.

Laws are not made for the people—SOCRATES.

## THE DAILY STORY

## STRAPHANGERS

Real Life Drama Overheard on a Streetcar. Two Ladies Look at Life and an Old Man Looks Back on It

By MARTIN ROWAN

It was about 4 o'clock in the afternoon and the southbound Clark street car was already crowded at Lawrence avenue. There must have been something special on in the Loop—perhaps a show—for at least three-fourths of the passengers were boys and girls of high-school age. Some of them tried to squeeze three in a seat. The old colored man who

grizzled hair was thick with soot. He held a large scoop-shovel between his knees. Once down around Grace street I saw him reach his hand into the pocket of his blue work shirt and extract three dollars. He looked at them tenderly, smiled and replaced them in his pocket. They were probably the reward of his day's labor shoveling coal. "Belmont avenue!" shouted the

mont grabbed a strap beside me. "Dora," said one. "I'd swear that was a sure thing in the first at Tropical Park. Gus had a tip on it from his boss."

"Tip, Alice," said the lady addressed as Dora. "There's no such thing as a sure thing. It's all a racket."

"How much did you drop, Dora?" said Alice.

"Six bucks, Alice. Won't George raise Cain when he comes home. It was the light and gas money he had in the drawer."

"Yeh, but George plays the ponies himself, Dora. He has no kick coming."

"Yeh, but you know how men are, Alice! No thought for anybody but themselves."

"Did you leave Dolores alone, Alice?"

"I left her with Mrs. Moore," said Alice. "How that poor woman can keep from going daffy I don't understand. She has eight kids of her own."

"I'd be nuts if I had kids," said Dora.

"Dolores sure is plenty trouble to me," said Alice.

"Center street-Armitage avenue," mumbled the conductor.

"Move up in the car, please. Lots of room in the rear."

Among the passengers boarding the car at Center street was an old lady of 70. She carried a little package like a lunch under her arm. Maybe she was on her way to the Loop to scrub offices. She stood in front of a big florid man who sat reading his paper. He looked like an executive. No doubt he too had had a busy day. He looked over his paper at the old lady and continued reading.

"Excuse me, Mister," said the colored man, "but will you kindly tell that lady there is a place here for her."

I reached over and tapped the old lady on the shoulder. The old colored man arose, doffed his cap and gave her his seat.

The old lady thanked him smilingly and sat down. "North avenue!" shouted the conductor. "Please step up in the car. Lots of room."

The high-school students pushed and jostled. The straphangers swayed. The old colored man reached for my strap to save himself from falling.

"Excuse me, Mister," he said. "There sure is a big crowd on this here car."

"Look at those signs," said a straphanger to his companion. "Vitamins—nothing but vitamins. My grandfather was 60 when he died and he never heard a word about vitamins in his life."

"It's a racket," said his companion. "Something for the drugstores to make money on. The women fall hard for that stuff."

"You bet your life," said the first straphanger. "It's nothing but rackets nowadays. They get you coming and going."

"Chicago avenue!" said the conductor. "Chicago avenue! Please step up in the car."

"Is this a Clark and Wentworth car conductor?" asked a lady.

"Yes ma'am," said the conductor—and as an afterthought "People should read the signs when they get on."

"But sometimes these cars go only to Van Buren," said the lady.

"The sign always tells the story of him," said the conductor. "The lady gave him a baleful glance."

"Randolph street next," said the conductor. "Randolph street."

The high-school students laughed and jostled and jumped to their feet. They surged toward the door like a tidal wave. They were all getting off at Randolph street.

"Easy there, Easy there," said the conductor. "Watch out for the automobiles."

The car was now more than half empty. The old colored man looked at me and smiled. He slumped wearily into a vacant seat in front of him.

## Local Couple Will Be Married This Evening

Clara Cramer Will Become the Bride of William E. Smith

Miss Clara Virginia Cramer, daughter of Mr. and Mrs. J. E. Cramer, 212 South Lee street, and William Edward Smith, son of William Smith, 803 Columbia avenue, will be married at 8 o'clock this evening in the parsonage of St. Luke's Lutheran church, with the Rev. H. Hall Sharp, D. D., officiating.

Miss Marie Schultz, Froberg, will be the maid of honor and Olin Layman will be the best man. The bride will be attired in a powder blue crepe with white lace collar and wrist accessories and a corsage of pink rosebuds and baby's breath.

The maid of honor will wear a pale pink dress with blue accessories and a corsage of tallman roses. The bride graduated from Allegheny high school, with the class of 1941. The bridegroom was graduated from Allegheny high school, 1939. He is employed as produce manager at the Acme market. The couple will have an apartment in the MacFarlane building, 11 Frederick street.

**BRIDE-ELECT** — Miss Cramer, daughter of Mr. and Mrs. J. E. Cramer, 212 South Lee street, will become the bride of William Edward Smith, son of William Smith, 803 Columbia avenue, at a ceremony in the parsonage of St. Luke's Lutheran church, here this evening at 8 o'clock with the Rev. H. Hall Sharp, pastor of the church, officiating.

## Ursuline Senior Prom Is Held by Auxiliary Group

Large Crowd Attends Event at SS. Peter and Paul Hall

The Senior Prom of Ursuline Academy was held last evening under the auspices of the Ursuline Auxiliary, at SS. Peter and Paul's hall Fayette street. The hall was decorated in the Senior class colors and with flowers and balloons. Serpentine, horns and hats were favors.

Those attending were Mary Jeanne Stein, Lino Franchi, Barbara Greaver, Armando Franchi, Anita Cooke, John H. Gluck, Jr., Shirley Brock, DeSales Cook, Jeanne Schaefer, Robert C. Ruppert, Eileen Brennan, Charles Mower, Mary C. Meyers, John Small, Frances Ferrito, Charles Peltini, Katherine Button, Robert Wilkinson, Helen Hagg, Robert Miller, Kathleen Murray, John Mattingly, Rosemary Squillace, Robert Brun, Jacqueline Alderton, James Beightol.

Louise Mattingly, William Hewitt, Betty Hartman, John McMahon, Rosemary Weisenmiller, Charles Griffith, Jane Porter, Francis Wisenmiller, Mary Lourdes Grabenstein, William Moody, Mary McLane, Francis Eberly, Kathleen Swann, Max Heming, Ursula Lindner, Fred Neely, Phyllis Umstot, William Hutter, Mary Cecelia Murray, Richard Kuhns, Mary Louise Fair, Homer Huk, Mary Louise Beaulieu, John McLean.

Patricia Brett, Brooke Fradiska, Jeanne Geatz, Robert Wolford, Helen Martz, Homer Wise, Jeanette Raphael, John Martz, Mary Virginia Foreman, Charles E. Oliver, Florence Gillard, Marshall Sowers, Rachel Becker, Raymond Snyder, Phyllis Sell, Joseph Lippold, Donald White, Margaret Lührman, J. Joseph Kenney, Mary Catherine Schaefer, Robert Mosser, Ida Santora, John Manley, Mary Theresa Neely, John Wolard, Doris Weber, Charles Glover, Jr., Mildred Flynn, Edward Neus, Betty Harrison, Thomas Grabenstein, Barbara Taney, Edward McGraw, Rosemary McKenzie, John Boyle, Phyllis Cornelius, Walter Kennedy, Betty McDonough, Joseph Stakem, Dorothy Lamour, John Doerner, Helen Young, James Kastner, Dorothy Flinn, George Rossworm, Louise Gluck and Norman Geatz.

The Business and Professional Women's club of Cumberland will be hostess to members of the Oakland club at the final dinner meeting of the season, this evening at 6:30 o'clock at Hafer's Happy Hills farm, National pike.

The table decorations will be in the nature of a flag day celebration. After dinner members will take a moonlight hay ride followed by a party.

Members of the local club attending will be Miss Isabelle Screene, Miss Myra Neffen, Miss Genevieve Reinhardt, Miss Hazel Oiler, Miss Dora Richards, Miss Jane Botsford, Miss Lillian Compston, Miss Mary Wickard, Miss Kay Keenan, Miss Olive Liller, Miss Christine Porter.

Miss Elizabeth Doub, Miss Maude Bean, Miss Ethel Dauter, Mrs. G. Morgan Smith, Miss Louise Coulton, Miss Mary Wells Cook, Cumberland, Miss Sarah Wright, Miss Louise Shaffer and Miss Datha Thomas, Froberg.

Group 5 of the Women's Society of Christian Service, of Central Methodist church, will organize at the meeting at 8 o'clock this evening at the home of Miss Vada Judy, 311 Para street.

Officers will also be elected.

Events in Brief

The Women's Missionary Society of St. Luke's Lutheran church will meet at 7:30 o'clock this evening at the church.

Mrs. Dorothy Wilson will be hostess to members of the Bethel Bible class, of St. John's Lutheran church, at her home, 422 Goethe street, at 8 o'clock this evening.

A benefit barn dance will be held at 8:30 o'clock, Friday evening, at Anderson's barn, Centerville, Pa., by the Centerville Reds of the Penn-Mar Baseball league.

Mrs. Austin Cook will be hostess at the card party sponsored by the Ursuline Auxiliary, Thursday evening at 8:15 o'clock in the cafeteria of the school. The evening has been changed this week because of the Graduation Exercises Wednesday.

WIFE PRESERVERS

If you need an extra supply of ice cubes, fill the thermos bottles with cubes. They will keep for 24 hours while the refrigerator makes new ones.

Fram Wins

ows, by Edgar D. Growden, fourth. Outing Is Planned

A camera outing for all members will be held Monday, July 14, at the summer home of Edgar Growden on the Hazen Road while on August 11 the club will feature a quiz contest at its regular monthly meeting in the Knights of Malta home.

Announcement was made that the club's traveling salon, which has been on the road for one year, is now in Lawrence, Mass., and will arrive home the week of June 22.

Music and Arts Club Installs New President

Mrs. Henry Swearingen Will Serve as Head of Organization

Mrs. Henry Swearingen was installed as president of the Music and Arts club last evening at the meeting at the home of Mr. and Mrs. John L. Baggett, 205 Columbia street. Other officers are Miss Ann Dorsey, vice-president; Mrs. Robert Kerlin, corresponding secretary; Miss Dorothy Wilson, secretary and Miss Mildred Twigg, treasurer.

Miss Mary G. Walsh spoke on "One Week at the Metropolitan" and Mrs. Robert Mann presented the lesson on "From Composer to Interpreter to Listener" by Aaron Copeland.

Mrs. William Keller presided over the business meeting and Mrs. Carl Sander gave the secretary's report on the last meeting.

John L. Baggett presented the following recorded program, Concerto, A Minor, second movement, Schumann, Myra Hess; Concerto, D Minor, third movement, Rachmaninoff, Horowitz; Concerto, F Minor, Larghetto movement, Chopin, Cortot; Concerto, D Major, second movement, Mozart, Kreisler; Proch Variations, Milza Korjus; Aria from La Forza del Destino, Verdi, Pinza and Ponselle; Prisoners Chorus from Fidelio, Beethoven, Metropolitan Opera Chorus.

Members present included Mrs. E. F. Avers, Mrs. Anthony Bolino, Mrs. Duke Burger, Miss Ruth Dicken, Miss Ann Dorsey, Mrs. Robert T. Kerlin, Mrs. William Ludman, Miss Janet Little, Mrs. Monroe McKenzie, Mrs. Robert H. Mann, Mrs. Herbert Platt, Mrs. Mabel Popp, Mrs. Frank S. Rowe, Mrs. Nellie Wilson, Foster, Mrs. Carl A. Sander, Mrs. Henry Swearingen.

Mrs. Richard W. Trevas, Miss Mildred Twigg, Mrs. George P. Ways, Mrs. Samuel T. Weatherholt, Mrs. Dorothy Willson. The guests attending were Mrs. Luttrell Baggett, Miss Mary G. Walsh, and Mrs. John Baggett.

Dance Is Planned

A floor show will feature the dance, which is being sponsored by the Allegheny Trades Council and the Retail Clerk's Association. Thursday evening, at Crystal Park, Ross Smith and his orchestra, Johnstown, Pa., will play from 9 to 1 o'clock. The dance will be cabaret style.

The committee in charge of arrangements included Matilda Kenney, Rose Bock, Violet Gibson and Lee Taylor, of the Association and Raymond Vlands, Kenneth Ramage, Grayson L. Lucas of the Council.

Recess Is Taken

Mrs. W. Carl White announces the recess of the group relief sewing project, at the First Presbyterian church house is continuing until further notice.

There are still materials to be made into garments which may be had by calling Mrs. White, 833. She will bring the materials to the volunteers home, and they may make them at their own convenience.

Mary Finley and Paul Travis Are Married in Detroit

Miss Mary Fran Finley, daughter of Mrs. Mamie Finley, 13711 Lindhurst avenue, Detroit, Mich., and Paul J. Travis, son of Mr. and Mrs. J. B. Travis, Westernport, were married Saturday evening, June 7, at East Grand Boulevard Christian church, Detroit, by the Rev. Paul Q. Wassenich.

Mrs. Raymond Cluniff, sister of the bride, was maid of honor. Miss Margery Gorman was the maid of honor.

Eugene Hawkins was best man, and Raymond Cluniff, Doyle Ball and Walter Herbst were the ushers. The bride was given in marriage by her brother, Harry Finley.

Kenneth Hamcker sang "At Dawning" and "Calm as the Night," accompanied by Mrs. M. H. Garrod, Jr., at the piano.

The bride wore a gown of white figured mousseline de soie, made in the Empire style. Her finger-length tulle veil was draped from a bonnet of mousseline. She carried a shower bouquet of white roses and lilies of the valley tied with white satin ribbon.

The matron of honor wore a gown of yellow marquisette, fashioned like the gown of the bride, with matching bonnet and carried tallman roses. The maid of honor was attired in a similar costume of orchid marquisette and carried yellow roses.

Following the ceremony a wedding reception was held in the church parlors.

The bridegroom is a graduate of Bruce high school, class of 1937. Mrs. J. B. Travis and Mrs. B. W. Robinson, mother and aunt of the bridegroom attended the ceremony.

Upon their return from their wedding trip Mr. and Mrs. Travis will be at home at 6110 Gunston avenue, Detroit, Mich.

Ursuline Seniors Will Hear Talk by Frostburg Priest

Father Francis E. Montgomery To Address 24 Graduates Tomorrow

The Rev. Francis E. Montgomery, assistant pastor of St. Michael's Church, Frostburg, will deliver the principal address tomorrow evening at the forty-sixth annual commencement exercises of Ursuline Academy in SS. Peter and Paul church, Fayette street, at 8 o'clock.

Twenty-four seniors in white caps and gowns will march from the Academy building to the church where the Rev. Father Boniface Weckman O.P.M., Cap., will preside and present the diplomas.

Following the processional grand march, which will be played by Prof. Peter Schumacker, Father Montgomery will deliver the commencement address.

Those who will receive diplomas are Jane Ackerman, Rose Mary Mathias, Kathleen Swann, Anna Lee Martz, Louise Singer, Ida Santora, Betty Harrison, Jeannette Raphael, Rose Mary Squillace, Betty Ziler, Mary Louise Fair, Margaret Lührman, Mary Cecelia Murray, Pauline Klosterman, Laing Lawler, Mary Patricia Brett, Mary Lourdes Grabenstein, Mary Myers, Dorothy Flinn, Dorothy Wolfe, Phyllis Umstot, Rose Marie Laing, Alice Looker.

Those attending were Margaret Caffrey, Rita Carpent, Louise Farrell, Elizabeth Frobes, Ethel Hartung, Frances Lendner, Rosemary Lendner, Agnes Loraditch, Elizabeth Mullen, Regina Santese, Elizabeth Stakem and Rose Marie Fannon.

Mister Marie, principal at Girls Central high school, entertained the members of the graduating class yesterday afternoon, at a theater party.

Benediction of the Most Blessed Sacrament will close the ceremony.

Entertains Class

The graduating class of Girls Central high school will be honor guests at 6:15 o'clock this evening at the Fort Cumberland hotel, at the final dinner meeting of the season of the Girls Central high school Alumnae Association.

Tomorrow evening the association is giving a dance in their honor at the Knights of Columbus home, North Mechanic street. Mary Flynn and his orchestra will play from 9 until 1 o'clock.

Central Girls Will Be Guests At Dinner Here

Will Be Entertained by Members of Alumnae Association

Honor Mrs. Anderson

Miss Elizabeth Frobes was hostess Friday evening at her home, 3049 Pulaski street, when she entertained with a dinner in honor of her house guest, Mrs. E. G. Anderson, son, wife of Capt. Anderson of the United States Army, Port Bragg, N. C. Mrs. Anderson was here to attend the graduation of Miss Frobes, Sunday from Girls Catholic Central high school.

Guests included Mrs. Clara Nye, Mrs. Mollie Rosenmerkle, Miss Frieda Rosemarkle, Miss Wanda Leese, Probes, Henry Herron, Thomas Mullen and Mr. and Mrs. M. J. Probes.

# DEATH AT THE SWITCH

RICHARD HOUGHTON

**SYNOPSIS**

Henry Potter seeks shelter from a rainstorm at long-closed Wildwood lodge, in whose big basement a model railroad club is operating its elaborate train system. A few minutes later John Ives, member of the club, is found shot to death in the train dispatcher's room. The next day, accompanied by a stranger named John Jones, Henry goes to Ives' house and learns that the dead man left a letter foretelling his own death. On suggestion of Mrs. Willett, Ives' housekeeper, the police call another meeting of the model railroad club the following night. Police Chief Williams announces to the assemblage that Ives was a Spiritualist and that Mrs. Willett believes he will come back from death to show them who killed him.

**CHAPTER FIFTEEN**

"THE CIRCLE is too large," Mrs. Willett complained. "We should all join hands."

"I'm sorry, Mrs. Willett," the chief told her. "We will have to violate the rules of a good séance."

"You've violated more than rules, bringing Ives' body here!" King told him.

Henry guessed that the police didn't want the club members to hold hands because the officers hoped the murderer would make some desperate move that would give him away. They were going to let him have every chance.

Henry shuddered.

"Hans, dim lights, please," the chief directed.

The big Swede ducked under the train table into the room where Ives had been shot. Slowly the overhead lights in the main room faded out and the lights in the buildings of the miniature, make-believe world began to twinkle on.

The members of the railroad club, and Henry, took places uneasily at intervals along the track.

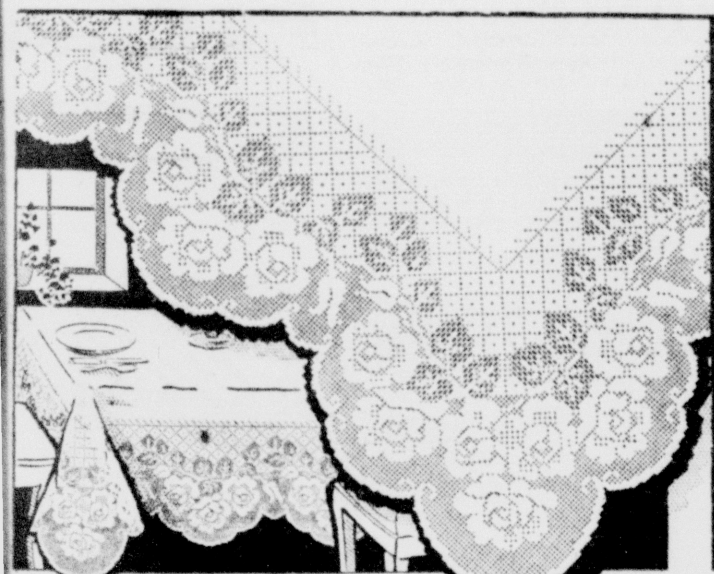

Laurence Harkness was nearest the control room door, Susan standing just beyond reach of his left. Professor Bisbee fidgeted where the train tracks curved into the corner in front of a vista of painted mountains, seen faintly as though by artificial moonlight. As the long shelf-like table curved on around the room in front and under the miniature scenery there waited in order: King, Marcia, Spinelli—and fearful Henry Potter. Between Henry and the control room door remained a vacant space for Hans to occupy after he put the train in motion.

Mrs. Willett and her father and the police remained in the center of the circle.

"I suppose you have another locomotive besides the two that were wrecked?" the chief asked.

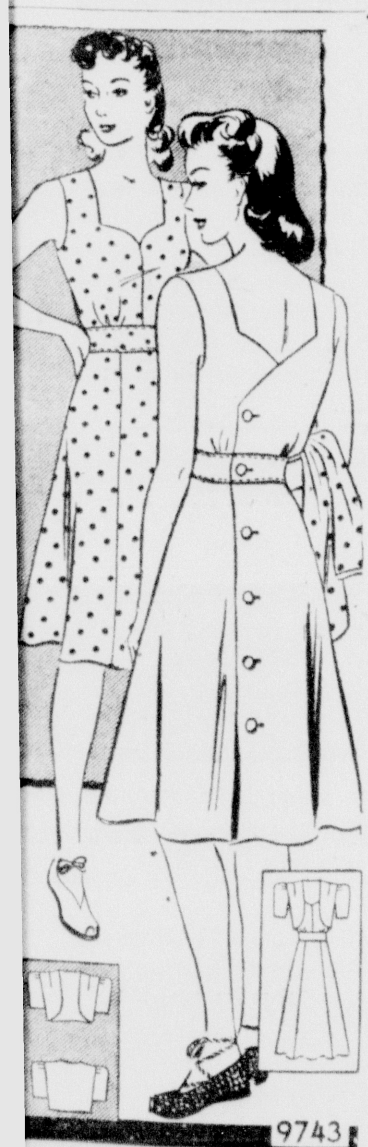

"Sure," came Hans' voice, muffled by the canvas sky. "Here she come!"

## Laura Wheeler Filet-Bordered Cloth Enriches Simplest Table

Roses ramble gracefully over this lovely filet border crocheted all in one piece. Combine it with linen and you've a dinner cloth—rich far beyond its price. Pattern 2896 contains charts and directions for making border in varied sizes; illustrations of it and stitches; materials required.

## Trim Suntan Dress and Bolero

### Marian Martin

PATTERN 9743

Sun 'n' fun days require a cool, casual style that's easy to make, easy to wear, easy to launder. Pattern 9743 by Marian Martin is the answer—it fills every need for summer sportswear. That saucy back button means that you can get in and out with lightning speed—and it allows you to open out the dress in a single piece for sewing and ironing convenience, too. Notice the nice cut to the suntan back and the becoming sweetheart shape of the front neckline. A set-in band encircles your waist to make you look willowy, and a panel down the front skirt gives graceful flare. To add to this style's usefulness for day-long wear, there's a matching or contrasting bolero.

Pattern 9743 may be ordered only in misses' and women's sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 16, dress, requires 3½ yards 35 inch fabric.

Send fifteen cents in coins for this Marian Martin pattern. Be sure to write plainly your size, name, address and style number.

Summer Fashion begins at home—with the Marian Martin Pattern Book! Hurry—order your copy today—and plan a colorful, complete wardrobe at your own price! There are exactly-right clothes for a going away or a staying-home summer with smart ensembles, trim sports modes, feminine party gowns, cool sheers, prints, cottons. Every-occasion styles for all the family—each quickly available in the simplest pattern you've ever used! Book just fifteen cents. Pattern fifteen cents. Book and pattern together, twenty-five cents.

## Happy Marriage, Happy Children Go Hand in Hand

If Unfit, Don't Wed; Broken Engagement Causes Less Woe

By GARRY C. MYERS, Ph.D.

There cannot be happy children without happy marriage.

As one who has been married for twenty-nine years, and who, as a psychologist, has been studying objectively the problems of marriage for many years, I venture to address some statements to the young people about to marry—not meddling, I trust, to be meddling.

If you have any doubts that you love the person you have planned to marry or are loved by that person; if you have any doubts that you will be mutual lovers twenty-five years hence, you would be foolish to go through with it. As a rule, the breaking of an engagement is a thousand times better than divorce.

You would be foolish to marry unless you are very sure you are fit to be a wife or husband—fit physically, fit morally, fit spiritually.

**More Than Half**

Are you sure you are not a pampered, selfish and self-centered person? Are you willing to go 50-50? If you are, and will allow for your own bias in judgment, you will be willing to go 75-25, that is, give 75 and take 25. Remember that when we think we give 75 we hardly may be giving even 50. No married couple ever continued happily married unless both of the pair made many changes in themselves, and gave up a great deal for the welfare and happiness of the other. But the moment one of the pair believes the other expects him or her to give up more than he does give up, trouble has begun.

Don't expect to make over the person you marry. Take him or her as is. Be thankful if what traits you dislike don't grow worse and virtues grow better. Be assured that any improvement you can effect in the man or woman you marry will come by way of your playing up the best in him or her. The more you remind your mate of his or her faults, the worse he or she will become. The more, on the contrary, you "celebrate successes" in the other, the

little wheels came a sorrowful dirge in minor key. It echoed through the empty halls of the old building above, as though the deserted lodge itself had come to life.

Spinelli snorted in the darkness. "Melodrama! I didn't think the police would stoop to such a cheap trick."

It didn't seem cheap to Henry. It made goose pimples start all over him. He looked toward the coffin. Surely if there were anything to Ives' belief that he could return from the dead, the stage was ready.

Henry's scalp prickled. Did he see a dim, misty glow in the blackness above the coffin? Was it part of the police stage setting, or was it . . .

Suddenly all the lights went out, except the eye of the speeding train.

"Oh!" cried Susan.

"Who's in the control room?" demanded Chief Williams.

Laurence faltered. "I—I learned on one of the wires and broke it. I don't think anyone's in the control room."

"Then why is the train running faster?"

Spinelli's oily voice cut in. "As it runs over the rails it cleans off the dust that interfered with the flow of current to the motor. With less resistance, it is natural for it to pick up speed after a few times around."

"Sounds logical," agreed John Jones.

"It won't jump off on my section of track," said Professor Bisbee confidentially. "There are no switches here."

King swore. "Don't you fools realize there is a murderer in this room? Turn on the lights or he'll kill one of us!"

"Leave the lights off," intoned Mrs. Willett in sepulchral voice. "Spirits come easier in the dark!"

"Heh, heh!" croaked her father. "That's right. Better dark!"

The police chief called. "John Ives! If you are here, detail the train in front of your murderer!"

At his words the locomotive seemed to falter, then go on.

It was Spinelli's turn to swear. "Of course it will jump the track eventually. It does most every night, but we prevent damage."

"Ay don't like this!" moaned Hans.

"O-o-o, here it comes!" breathed Marcia.

There was a crash. The headlight cut off. A splintering of wood, the crunch of small gravel.

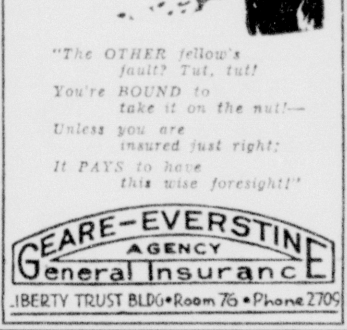

"Sergeant Buckner!" called the chief. "The lights! Quick!"

## Allender Urges City To Increase Labor Wage Rate

### A. F. of L. Agent Asks Contract Pay Be Made 60 Cents an Hour

The Mayor and City Council yesterday heard a request by P. Patrick Allender, business agent for American Federation of Labor building trades unions, that the wage for common labor on city work done by contract be fixed at sixty cents an hour.

The labor group is anxious to protect local contractors by being assured the city will require the sixty-cent rate, according to Allender, who explained contractors with whom the A. F. of L. has agreements will pay sixty cents.

Allender said he was not speaking for city employees, when asked by Mayor Harry Irvine, who pointed out that if the council approved the new rate, it might mean city employees would have to be paid the same instead of the present fifty cents.

#### City's Health Good

Lester Reynolds, Keyser, W. Va., attorney, said \$1,000 as partial payment for legal services in connection with the airport. The clerk of the Mineral County Circuit Court was ordered paid \$250 to cover the award in the city's land condemnation case against Rufus E. Lamp. In addition \$1,250 was paid Reynolds to be applied to the purchase of the James M. Ruble property for the airport.

Orders were passed fixing the auditor's bond at \$20,000 instead of \$5,000 and establishing a \$5,000 bond for the city clerk.

The health report for May declared the "general health conditions of the city have been satisfactory notwithstanding a decided increase in whooping cough and measles." May whooping cough cases numbered sixteen and measles twenty-nine.

#### Permits Are Granted

Credit of \$35.58 was ordered for the paving account of Franklin E. Stotter and the Johnson Realty Company and Mrs. Emma Pauber was ordered paid \$25 for an injury. An advertisement in the program for the State Volunteer Firemen's Convention was ordered at a cost of \$60.

Numerous permits were granted for parking lots, night clubs, junk yards, bowling alleys and second-hand dealers.

The following balances were reported for June 1: General \$9,665.53; water operating \$53,421.59; general improvement bonds \$15,420; and sewer bonds of 1931, \$5,309.20.

Water consumption for the week ending Sunday was 51,735,000 gallons. The daily average was 7,676,600 gallons as compared to 7,329,000 for the same period last year.

## Ridgeley Driver Appeals Conviction On Motor Violation

Haden Blanch, of Route 1, Ridgeley, W. Va., was released on \$150 bond last night by C. A. Jewell, justice of the peace, after he appealed his conviction on a reckless driving charge. Blanch, represented by J. S. Zimmerman, Romney, W. Va., attorney, was fined \$25 and costs on the charge.

The case was the outgrowth of a collision Saturday between the machines driven by Blanch and Joseph McKechnie, of 623 Patterson avenue, this city. McKechnie was acquitted of a similar charge.

Nine witnesses testified in the case which took from 6 to 9:30 p. m. to dispose of C. V. Barnard, chief of police, made the arrests on Frankfort road.

## Trial of Edward Maritz Will Be Continued in Police Court Today

The trial of Edward P. Maritz, 781 Fayette street, arrested early Saturday morning on a charge of disorderly conduct preferred by his wife, is to be continued today in Police court before Magistrate Frank A. Perdue.

Maritz was taken to headquarters by Officers P. O. Daum and John H. Newhouse, when his wife charged that he became abusive at a dance Friday night, and struck and kicked her after they returned home. He was released on \$20 bond.

Charged with being drunk and disorderly, John J. Burns, 400 Grand avenue, forfeited \$20 bond. Burns was arrested early Sunday morning by Officers Roby, Condon, Daum and Newhouse on charges preferred by R. C. Adams and Mary Adams.

## Army Officer's Wife Improving from Head Injuries at Hospital

Injured several days ago while horse-back riding near Mt. Savage, Mrs. Margaret Powers, 30, wife of First Lieut. J. William Powers, Fort Benning, Ga., was reported to be improving at Allegheny hospital where she was taken Sunday night.

Following the mishap, she was treated at the home of relatives but it was decided to bring her to the hospital because of the fact the injuries were about the head.

The 1940 census reveals that the decade between 1930 and 1940 was the first decade in American history in which immigration was not a factor in population change. It was the first decade in which there was an excess of emigration over immigration.

## America's

(Continued from Page 14)

or more sincere appreciation than the nursing profession. "Whether she is taking part in that great mystery of life, the birth of a child, or closing the eyes of the dying in the sleep that knows no awakening, the nurse is ever and always devoting her energies to the relief of the ill and pain of suffering humanity. Whether she moves along the hospital ward or stands by at the operating table whether she is called upon to administer on the fields of battle, the nurse who has caught the real spirit of service is a benediction.

She is ever mindful of the high ideals and the sacrifices of the hundreds of famous women that have adorned her profession. She shares much more responsibility than her sisters in other walks of life. She must treat the mental as well as the physical ill of her patient; she guards well the confidence that repose in her sacred trust; at times she must be without fear; she must always be ready to think quickly and act promptly. She must have enthusiasm—it is a necessary ingredient in the recipe for doing good work.

Life is a short prologue to eternity—the world is a stage upon which all of us are actors—be sure to play your part with credit to your school and to yourself. The years have brought you their finest gift if they taught you to be kind. The secret of happiness is making the most of what you are with what you have. Try to establish good habits.

#### Expression Is Important

Someone has said, "the chains of habit are generally too small to be felt until they are too strong to be broken." A definite objective is the first aid to progress. For the graduate nurse, there is only one monopoly worth owning—that is one based on good service, a cheery word and a kindly smile, good health and good sense are two of life's greatest blessings—a nurse needs both of them.

"In all your contacts with your patient—the expression on your face is the most important thing you wear. To go about your work with pleasure, to greet others with a word of encouragement, to be happy in the present and confident in the future, this is to have achieved some measure of success in living. Don't be afraid of work. The nurse who does only what she gets paid for will never get paid for more than she does. When we kill a little time, we murder a big opportunity.

"Do not conclude that with this diploma your education is complete—it is just beginning. Keep abreast of your profession—the technique of today is often obsolete tomorrow. Your Nursing School has given you the foundation—what you build on that foundation rests with you. Seek knowledge—understanding—wisdom. These words should be emblazoned upon the heart of every nurse. You are taught to administer a hypodermic; that is knowledge. When you know its purpose and the effect on the patient, you have understanding. But when to administer the injection requires wisdom.

"In closing may I remind you of our highest objective in the words of Dr. Trudeau: 'To cure sometimes, to relieve often, to comfort always.'"

## Chairmen

(Continued from Page 18)

area and averaged twenty-five cents per capita for county residents. The county drive is part of a national program whereby local citizens may help maintain the morale of American fighting forces and defense workers.

To Maintain Clubs Under the plan, which has the approval of President Roosevelt and heads of the army and navy and other high governmental officials, club houses will be maintained where soldiers, sailors, marines and defense workers may find adequate recreational, religious and educational facilities when off duty. These centers will be conducted by six service agencies which won praise for their services during and after the World War in recreational and welfare activities.

The campaign is being conducted by all six agencies instead of six individual drives, and a program is being developed to eliminate all duplication of work and to make the number of persons affected more inclusive.

Headquarters for the drive in Allegheny county will be located at 12 North Centre street and will be opened in several days.

## Kline and Reed Will Open New Cafe Here

The Acorn Cafe, owned and operated by Walter E. Pat Kline and John L. Reed, will open at 52 North Centre street, on or about June 14. It was announced yesterday.

The new cafe will be located in the store room formerly occupied by the Montgomery Ward and Company mail order office.

Remodeling of the interior and installation of a bar and seven booths is now under way.

## Three Births Are Reported Here

Mr. and Mrs. Roger Rowe, 255 Williams street, announce the birth of a daughter yesterday morning at Allegheny hospital.

A daughter was born to Mr. and Mrs. Claude Orndorff, 218 Columbia street, yesterday morning at Memorial Hospital. Mrs. Orndorff is the former Miss Ruby Sowers.

Mr. and Mrs. D. H. Parrish, 315 Independence street, announce the birth of a son, May 10.

## Accident Group Deciding Cases In Record Time

### Time Between Filing of Request, Hearing Averages 17 1-2 Days

Charles H. Moylan, chairman of the State Industrial Accident Commission, announced yesterday that claims of injured industrial workmen for compensation are being adjudicated more promptly than at any time in the history of the commission, which was established in 1914.

Moylan stated that in the twelve weeks beginning March 15, 1941, the time lapsing between the request for a hearing on a compensation claim and the date of the hearing averages seventeen and one-half days; that the time lapsing between the request for a hearing and the date on which the trial commissioner reaches his decision and the compensation award is mailed to the claimant average 19 days, or less than three weeks. This represents a decrease of fifty-eight per cent in the average time required before March 15, 1941 in disposing of a formal hearing of compensation claim.

#### One Less Commissioner

"Prior to last March 13, and during the twelve months' period ending on that date," Moylan explained, "the average time lapsing between the date a hearing was requested and the actual date of hearing was 34 1/2 days, and the time lapsing between the date of hearing and the commission's rendering of its decision and the mailing of the compensation award to the injured claimant, consumed an additional 11 1/2 days—a total of forty-six days. The same job with one less trial commissioner and an increase of twenty per cent in the number of compensation claims being filed, is now being done in nineteen days—a saving of twenty-seven days, which represents a decrease in time element of fifty-nine per cent."

#### Cases Handled Quickly

Section 52, Article 101 of the Annotated Code of Maryland, which embodies the Workmen's Compensation statute, requires the commission, when a claim for compensation is made to make or deny an award within thirty days thereafter, and in case of a formal hearing thereon, within thirty days after said hearing is closed. Decisions are now made and compensation awards mailed out within one and one-half days after the date of hearing."

## Mrs. Stephens To Speak Before Cresap Society In Columbus, Saturday

The Cresap society will hold its twenty-second annual meeting at Columbus, Ohio, Saturday, June 14 at 1:30 p. m. at the Auditorium of Pine Arts, 480 East Broad street.

Mrs. W. W. Stephens, president will call the meeting to order, and will give a talk upon the life of Colonel Thomas Cresap and his settlement at Oldtown about 1740.

After the meeting, the members will attend a banquet at which Mr. Alvan Talmadge will be toastmaster.

## Hunting Licenses Placed on Sale

BALTIMORE, June 9 (AP)—Clerks of courts of Maryland counties were ready today to begin sale of nearly 80,000 state hunting licenses provided them by the Game and Inland Fish Commission.

Attached to each license is a postal card to enable the hunter to report his kill, as provided by law, all non-residents, whether or not they own land in Maryland, are required to buy licenses.

Law Offices of William M. Somerville, 14 Greene Street, Cumberland, Maryland.

## ATTORNEY'S SALE

Of Valuable residence property situated in Cresaptown, Allegany County, Maryland.

Under and by virtue of power of sale contained in a certain mortgage from Howard Blake Weiler and Marie Weiler, his wife, to the Second National Bank of Cumberland, Maryland, a corporation, dated October 3, 1940, and recorded in Liber 183, folio 189, among the Mortgage Records of Allegany County, the undersigned attorney named in said mortgage will sell at public auction.

WEDNESDAY, JUNE 25th, 1941, at Ten o'clock A. M., on the Liberty Street side of the Second National Bank in Cumberland, Allegany County, Maryland, all that lot or parcel of ground situated along the northern side of the Branch or County Road, leading southerly from the Winchester Road, at the Village of Cresaptown, in Allegany County, Maryland, known as part of Lot No. 1 of the Subdivision laid out by John W. Cecil out of the portion allotted him by the heirs of William Cecil out of the whole farm of Philip Cecil, and particularly described as follows, to wit:

Beginning for the same at a stake standing at the North side of said County or Branch Road at a certain standing distance South 66° degrees West 726.6 feet from the beginning of said whole Lot No. 3, it being also the Southeastern corner of the lot conveyed by John W. Cecil and wife to Queen H. Cecil and wife by deed dated December 1, 1929, and recorded in Liber No. 230, folio 20, of the Land Records of Allegany County and running thence with said side of said road South 66° degrees West 30 feet to the beginning of the lot conveyed by John W. Cecil and wife to George G. Cecil and wife by deed dated June 29, 1929, and recorded in Liber No. 181, folio 70, of said Land Records; then with the line of said George G. Cecil lot to the end of a line of said Queen H. Cecil, then with said lot South 25° degrees East 138 feet to the beginning of the lot.

This property is improved by a good room and bath frame residence in excellent repair, central air conditioning, heating system, new bathroom equipment, water softener, electric pump, and garage, and is one of the best residence properties in Cresaptown.

Terms of sale: Cash, one-third on the day of sale and the balance upon ratification of sale and delivery of deed. All State and County taxes for the calendar year to be adjusted as of the date of sale.

WILLIAM M. SOMERVILLE, Attorney named in Mortgage.

## State Road Commission Reports that Traffic Is Being Maintained

Traffic is being maintained satisfactorily over roads in this vicinity, according to the weekly report of the state road commission.

Only the bridges over the Potomac river at Luke is closed to traffic, necessitating a detour via Routes 36 and 135 from Westernport to Luke.

Construction on Route 40 is continuing without halting of traffic. Projects noted in the report include National Pike, construction of bridge and approaches, two miles east of Hancock at Tonoloway creek.

New Philadelphia road, construction of overhead and approaches, two miles east of Golden Ring, and construction of a dual highway on the relocation between Poy's hill and Elkton.

## Coast Guard Announces Openings for Seamen And Mess Attendants

The United States Coast Guard has an unlimited quota for apprentice seamen and mess attendants, third class, during the month of June, it was announced yesterday by the Baltimore recruiting office 627 Post Office building, Baltimore.

To be eligible for enlistment, applicants must be not less than eighteen or more than thirty-one years old, except that honorably discharged members of the Coast Guard, Navy or Marine corps between the ages of twenty-one and forty may enlist if otherwise qualified, and the length of service is equal to or greater than the excess of his age over thirty-one.

Men of the coast guard, if honorably discharged, may enlist at the same rating as was held at the time of their discharge.

## Treatments

(Continued from Page 18)

with an attractive tile pattern heavy gauge linoleum.

Miss Henrietta Schwarzenbach, an official of the league, stated yesterday that she and other members of the organization are pleased with the new headquarters and praised Mayor Harry Irvine and members of the city council for their interest in furthering the work of the league here.

#### City Spends \$3,000

The city will spend approximately \$3,000 on the project while the problem of equipping the building is up to the league. Screens will be purchased for the thirty-two windows and fifty auditorium chairs have been purchased for the patients to attend clinics.

Prior to moving into the Bedford street building, the league's headquarters had been located at 59 Pershing street in a small office since July 30, 1936. Clinics were conducted in the basement of the city hall.

Arthur B. Gibson, city auditor, and past exalted ruler of Cumberland Lodge No. 63, B.P.O. Elks, will speak on the "History of the Flag" at the Flag Day exercises Sunday afternoon in the amphitheater of Constitution Park.

The principal address will be delivered by Francis J. Petrot, adjutant general of the State of Maryland.

Sponsored annually by the local Elks, the programs always attract large crowds.

## Nine Deeds Are Recorded Here

The recorder's office at the court house filed eleven chattel mortgages, four purchase money mortgages and nine deeds yesterday.

Maude F. Imes was deeded a property on Fifteen Mile Creek known as "William's Mill Seat" by the Allegany County Board of Education. Harry C. Winner transferred a property in election district, No. 11, Frostburg, to Irene Steinla.

A property on High street and Frost avenue, Frostburg, was deeded to Donald Chaney and wife by James D. Close and wife. Ethel Miller Blume and Charles Blume deeded a property on Union street, Frostburg, to Frank B. Miller and wife.

A property in Flintstone was transferred by Loren H. Chaney et al to Jauris E. Chaney et ux. Lots 15 and 16 on Clement street, Cumberland Park Addition were deeded to Curtis James Lewis by Joseph Loretta, James R. VanPelt transferred a property to Marion F. Gordon.

David Williamson, trustee for the Maryland Coal Company, deeded a tract of land to Lester S. Teter. The property was described as being in election district 29, Allegany county, part one of "Palma's Three Parts." The Edgewood Park Development Company, Inc., transferred to P. DePaul Straub and wife Lot 23 on Elmwood Lane in Edgewood Park addition.

Three drivers were tried yesterday by Magistrate Roy S. Bowman at Cresaptown for violation of motor laws.

## Cresaptown Magistrate Fines Three Drivers On Motor Violations

Charles H. Loyer, 612 North Centre street, was fined \$5.75 for exceeding thirty miles an hour at Bowling Green. He was arrested by Sgt. Charles W. Magaha, state police.

Arrested for reckless driving near the Celanese plant, Hiram J. Robinson, of 10 Howard street, McCool, was fined \$6.45, Sgt. Magaha made the arrest.

Charles L. McIntosh, 7 Boone street, was fined \$1.75 for operating a car at an excessive rate of speed on Route 220 near McCool. Corp. A. M. Suloch, state police, made the arrest.

Another examination just announced by the Commission is for cylinder pressmen for employment in the Government Printing Office and the Bureau of Engraving and Printing of the Treasury Department. In the Government Printing Office pressmen will be paid \$132 an hour for a 40-hour week. The Bureau of Engraving and Printing pays at the rate of \$10.56 a day.

Full information as to requirements for these examinations, and application blanks, may be obtained from Frank Storm, secretary of the board of examiners, United States Civil Service Commission, post office building.

## Minke Will Explain New Fish and Game Laws to Sportsmen

Joseph A. Minke, regional game warden, will give a thorough explanation of the new state fish and game laws at the regular meeting of the Cumberland Union of the Square Circle Sportsmen's Association, this evening at 8 o'clock in Mater's Tavern, 249 North Centre street.

All sportsmen interested in the new laws are invited to attend.

Percy E. Sowers is president of the sportsmen's group.

## Oldtown Road Man Is Jailed in Default Of \$100 Peace Bond

Chester Benson, of Oldtown road, was committed to jail yesterday in default of a \$100 peace bond imposed by Magistrate Frank A. Perdue upon a warrant obtained by Charles E. Davis, who claimed Benson threatened to harm him.

Benson's father wanted to furnish bond but he would not accept it, court attaches said.

## Four Men Are Held For Checking by FBI Officials

Police are holding four Boston men arrested by A. C. King, B. & O. policemen, while the FBI makes a check on them. They were apprehended for riding freight trains.

They are Rocco Nigro, Philip Domenico, Angelo Ciantello, and Rocco Grabanello.

## Mineral Economists Are Needed for National Defense Planning

As a part of the comprehensive planning for national defense, mineral economists are needed to do research in the fields of minerals, coal, and petroleum. Civil service examinations for these positions are now open. The salaries range from \$2,600 to \$5,600 a year. Completion of a four-year college course with major study in such subjects as geology, metallurgy, mining engineering, or economics, and professional experience dealing with the economics of mineral industries are required.

Another examination just announced by the Commission is for cylinder pressmen for employment in the Government Printing Office and the Bureau of Engraving and Printing of the Treasury Department. In the Government Printing Office pressmen will be paid \$132 an hour for a 40-hour week. The Bureau of Engraving and Printing pays at the rate of \$10.56 a day.

Full information as to requirements for these examinations, and application blanks, may be obtained from Frank Storm, secretary of the board of examiners, United States Civil Service Commission, post office building.

## 22 Men Take Special Tests for Enlisting In the Air Corps

Special tests were taken yesterday by twenty-two men at the local Army recruiting station for enlistment in the Air Corps. Eighteen made passing grades.

The tests are for men who have not completed high school but who have the necessary mental qualifications to enlist in the Air Corps. Yesterday's tests were given by Master Sgt. Charles L. Kessler and Sgt. Harry L. Kegley, of the Baltimore recruiting office. Sgt. Clarence Biehn, local recruiter will continue the tests from now on.

Richard L. McClellan, of Harding avenue, enlisted for service with the Infantry, Hawaii.

## Navy Recruit Is Assigned to Aviation Machinists' School

Costa Vincent Chuco, of McCool, who enlisted in the Navy at the local recruiting station January 14, has been assigned to the Naval Air Station, Norfolk, Va., for four months instruction in the Aviation Machinists' School. Graduates are sent to Naval air units where their training is continued and rounded out by practical experience.

## WPA Man Is Injured On Airport Work

While helping to load a sawn carriage at the new airport yesterday, William Spiker, 54, of 1101 Lexington avenue, suffered contusion and lacerations of the first and second fingers of his right hand.

His hand was caught between the "dogs" on the machinery. After treatment at Memorial hospital he was released.

## Two Motorists Are Fined in Court For Speeding

Arrested Saturday on Long Hill Route 40, for exceeding the speed limit, Robert Samuel Binnix, of 17 Bedford street, was fined \$10.75 yesterday by Oliver H. Bruce, Jr., trial magistrates' court. Sgt. Charles W. Magaha, state police, made the arrest.

Milton Burkett, of Frostburg, was fined \$5.75 yesterday in trial magistrates' court for speeding on Route 40 two miles east of Cumberland Corp. John H. Doud, state police made the arrest.

## Mary Buckbee and Julius Hornyak Are Married

Ceremony Is Performed in  
Mannington by the Rev.  
John O'Reilly

PETERSBURG, W. Va., June 9.—Mrs. Gertrude Buckbee, Maysville, announces the marriage of her daughter, Miss Mary Susan Buckbee, to Julius J. Hornyak, son of Mr. and Mrs. John A. Hornyak, Farmington, which took place June 10, 1940 in Mannington, with the Rev. John L. O'Reilly, officiating.

The bride is a graduate of Fairmont Business college and for nine years has been employed at Cook hospital. Mr. Hornyak is employed by the Consolidated Coal Company at Carolina. Miss Mary Helen Hornyak, sister of the bridegroom and John A. Hornyak, Jr., brother of the bridegroom, were the only attendants. They spent their honeymoon at White Sulphur Springs. They will reside in Fairmont at 1111 Carleton street.

## Personals

A. J. Welton, editor of the Grant County Press, who has been ill, is improving.

Miss Margaret Weese, Samel Alt and Lewis Moomau returned today from Keyser where they spent the past nine months attending Potomac State College.

Mr. and Mrs. Earl Trenton Keyser, Mr. and Mrs. Harrison Trenton, and Mrs. Grace Coffman, Cumberland, were here Saturday night to see H. P. Groves who has been ill and is about the same.

Mrs. Oscar Keyplinger and children, Mr. and Mrs. Ray Judy and daughter, George Judy and Mr. and Mrs. Delmar Parsons, Maysville, and Mr. and Mrs. C. H. Park and son, spent yesterday in Hardy county. Needmore visiting Mr. and Mrs. J. H. Park.

Mr. and Mrs. Walter Wood, Moorefield, announce the birth of a daughter in Memorial hospital, Cumberland, Friday, Mrs. Wood is the former Miss Kathleen Highman, who had been located here as county health nurse for Grant and Hardy counties.

Mr. and Mrs. E. G. Harman have returned from Morgantown where they attended their son, Roy's graduation. Roy returned home with them.

Mrs. Lela Keiter and son, Richard, have returned from Ada, Ohio, where Richard received his degree at Ohio Northern University.

Bruce Welmer and Miss Loretta Coleman have returned from Chicago.

Mr. and Mrs. John Trenton and Miss Arvella Trenton, Morgantown, who have been visiting Mr. and Mrs. W. A. Veach, Maysville, have returned home.

G. B. Simmons is erecting a service station in Maysville near the brick church which will be open for business July 1.

Mrs. C. C. Arbogast, who has been in a hospital in Baltimore for a few weeks, has been moved back to Keyser hospital and is very serious.

Miss Effie Groves has returned from Cumberland where she spent several days visiting relatives.

## Patty Berg Leads Western Open Fjeld

CINCINNATI, June 9 (AP)—Miss Patty Berg, red-haired, freckle-faced golf professional from Minneapolis, ripped two strokes off par with a scintillating 71 today to pace a field of eighty-two over Cincinnati Country club's treacherous terrain in the eighteen-hole qualifier for the twelfth annual women's Western open championship.

The sparkling round, including four birdies and an eagle, gave the Minnesota miss a five-stroke edge for the medal.

In second place with 76 was Miss Helen Dettweiler of Washington, D. C., winner of the tourney in 1939 and the only former champ in the field.

Miss Betty Jameson, national amateur champ from San Antonio, was the only other qualifier to crack 80, her 79 landing her in third place.

## Believes Youth of Today Will Make Good

CHESTERTOWN, Md., June 9 (AP)—Dr. Samuel T. Arnold, addressing fifty-five Washington College graduates, said today he believed the youth of today "will not be found wanting in any crisis which lies ahead."

"Students will cooperate in every way which seems best to serve our American ideals but they need assurance that if war must come, then we can look forward to a peace which will be inspired and permanent," said Dr. Arnold, dean of Brown University.

Dr. Gilbert W. Meade, president, presented diplomas to the graduates at the one-hundred fifty-ninth commencement exercises of the college, which gave George Washington his first honorary degree in 1789.

## Dog Causes 5 Wrecks

CHICAGO, June 9 (AP)—A dog rolled across La Salle street today. A woman driver swerved to avoid striking it.

A second car rammed the rear of the auto.

A third machine bumped the second car from behind.

A fourth auto smashed into the back of the third car.

None was injured.

The dog ambled off toward another busy thoroughfare.

## Tome School To Close June 30

Vice President Makes Announcement at Graduation Exercises

PORT DEPOSIT, Md., June 9 (AP)—Tome school will close its doors on June 30 because of adverse financial conditions, Richard E. Tome, vice-president of the board of managers, announced at the graduation exercises today.

Tome said the school would be idle for a year and then would be used for purposes of "higher learning."

During the past year 125 boarding students and twenty day pupils were enrolled at the school, whose physical plant is valued at approximately \$1,500,000.

**Had Stormy Career**

Founded by Joseph Tome forty-one years ago, the school in recent years has had a stormy career. In 1937 Dr. Charles J. Keppel was asked to resign as headmaster, precipitating a student strike seeking his reinstatement.

He was retained, but resigned in 1939. In 1939, the trustees of the Jacob Tome Institute sold the school to its graduates for \$300,000. In June of last year the school, under graduate management, absorbed the Newton School at Newton, N. J.

**President Resigns**

Last January the president of the board of trustees, Robert W. Black, resigned his post, saying there were "differences of opinion between myself and the other trustees."

Spokane at the graduation exercises today was Professor Arthur Kyle Davis of the University of Virginia faculty, a graduate of Tome in 1914.

"My immediate, practical advice," Davis told the graduates, "is that you go ahead with your education, if you can do so without too much restlessness, unhappiness, sense of strain and development of escapist responsibility."

## "Shakedown" Inquiry To Be Continued

BALTIMORE, June 9 (AP)—The Baltimore city grand jury today voted to continue the investigation of alleged "shakedown" attempts made in the last legislature, and State's Attorney J. Bernard Wells announced the first witnesses would be called tomorrow.

The grand jury's resolution, filed by Foreman Robert M. Wallace, requested the state's attorney "to retain suitable special investigators for the purpose of carrying on the investigation."

## Summer School for Aircraft Students

COLLEGE PARK, Md., June 9 (AP)—The University of Maryland will offer an intensive summer course for aircraft material inspectors open to college graduates and high school graduates who do not plan to enter college, Dean S. S. Steinberg of the College of Engineering said today.

The course is being offered to meet a request of the Glenn L. Martin company, Steinberg said.

The course is part of the engineering defense training program being given at the university. Steinberg said the class would begin on June 23, but that he was already receiving applications.

Steinberg said the federal government would pay tuition costs.

## Another Airplane Strike Threatened

SAN DIEGO, Calif., June 9 (AP)—AFL machinists announced that a strike vote against the Consolidated Aircraft Corporation, would be taken tomorrow, despite progress made in labor contract negotiations with company officials tonight. Bidding will start at 5:30 a. m. and continue until 10:30 p. m.

## White Wins Decision Over Frankie Wills

BALTIMORE, June 9 (AP)—Sluggish White, 139½, of New York won a split decision in ten rounds over Frankie Wills, 149½, of Washington tonight. Johnny Shkor, 209, of Baltimore knocked out Buddy Moore, 194, of New York in the third of their scheduled ten rounds.

## Dr. R. R. Norris Dies Suddenly at Crisfield

CRISFIELD, Md., June 9 (AP)—Dr. R. R. Norris, prominent Eastern Shore physician, died from a heart attack this evening while he and two other men were pushing his yacht ashore on the Little Annamessux River, near his home.

He died at Edward W. McCready hospital.

Dr. Norris was born at Washington, D. C., Oct. 18, 1881. He was educated at Emerson Institute, Washington, and at George Washington University.

After graduation from the University of Maryland school of Medicine and a post graduate course at the Johns Hopkins university, he was appointed by the faculty of Bayview hospital.

## Lincoln Fields Scratches

FIRST RACE—Burr Off.

SECOND—Arlie Bird, Marcen's Time, Royal One, Cute Eye, Board's Image, Saucy Sugar.

THIRD—Shenutt, Getabout, Fleurs De Lie, Flying Bonnet, Schnozzle, Steep.

FIFTH—Joan T.

SIXTH—Substitute race declared off. Weather clear, track fast.

## Value of Morale Stressed in Address To Hood Graduates

FREDERICK, Md., June 9 (AP)—Seventy-one young women graduates of Hood College were told today by Dr. Raymond Walters that "there is a type of defense absolutely essential to animate and reinforce military power—and its name is morale."

Dr. Walters, president of the University of Cincinnati, said "we can bring dignity and beauty into daily life" and "the special opportunity of woman is as wife and mother to guide the household with wisdom and the law of kindness."

President Henry I. Stahr conferred forty-three degrees of bachelor of arts and twenty-eight degrees of Bachelor of Science in home economics at Hood's forty-eighth commencement exercises as Dean Helen D. Bragdon read the candidates' names.

Miss Ruth Stotter of Drexel Hill, Pa., was given the highest award in college, the Elsie Muir Loucks prize, a jewel, established by the Rev. and Mrs. W. J. Muir in memory of their daughter, a member of the class of 1912.

## Missing Bomber May Be Down in Wyoming

EVANSTON, Wyo., June 9 (AP)—Mysterious, garbled radio signals gave searchers their only clue tonight in their quest for an army bomber missing with its crew of six since it took off at Salt Lake City yesterday on a scheduled non-stop flight to Chicago.

Capt. H. H. Clark of the state highway patrol said faint messages were picked up three times at patrol headquarters. All the operator was able to decipher was these words:

"Go south x x x many miles from x x x."

Mounted searching parties rode through the snow covered hills southeast of here, after ranchers reported a low flying plane passed over the area yesterday afternoon. Heavy clouds and storm conditions prevented searching flights.

## Training Plane Kills Workman

OAKLAND, Calif., June 9 (AP)—A naval training plane skidded out of control, crashed into a group of WPA workers at the Oakland airport today and killed Charles Mitchell, 52.

Naval Cadet Arne Havu, 25, of Pontiac, Mich., at the controls for his first solo flight, said the plane started to move before he was ready.

## "Hitch Hiker" Is Killed

CHARLESTON, W. Va., June 9 (AP)—Injuries suffered in a fall from a truck June 1 caused the death today of Ruby Browder, 21, of Huntington. Miss Browder, formerly of St. Albans, had "thumbed" a ride from Charleston to St. Albans and fell under the truck wheels while alighting, state police reported.

## Army Reopens Big Aviation Plant After 30 Men Are Injured in Riot

(Continued from Page 1)

require hospitalization, in clashes between pickets and workers attempting to enter the plant.

Troops, with bayonets fixed to their rifles supported by light armored cars bristling with machine guns, took over complete charge of the plant and banned all picketing.

They placed sixteen strikers under military arrest after late afternoon disorders and succeeded in driving the bulk of 5,000 strikers and their sympathizers almost a mile from the plant.

At Sacramento, state selective service headquarters, acting on orders issued by Brig. Gen. Lewis B. Hershey with President Roosevelt's approval, ordered all of the state's 284 local draft boards to reclassify all registrants who are no longer at the jobs for which they were deferred.

### Machinists for Army

Capt. Charles A. Going, state selective service director, was unable to say how many of the 17,000 men deferred as necessary to defense industries would be affected but said the order would apply to striking machinists in San Francisco shipyards as well as to the North American strikers.

Frankenstein, who yesterday suspended the local officers of the union from their positions, said the national organization would bargain for the employees who returned to work and would help replace the others.

Col. Branshaw warned that the army would arrest anyone interfering with resumption of North American operations.

He said he had been advised that returning workers had been threatened with bodily harm.

### Colonel in Complete Charge

Col. Branshaw said he was in complete charge of the plant and that he saw no need for any negotiations with the CIO United Automobile Workers union.

A few hours after two battalions of the Fifteenth Infantry had restored order by dispersing 1,000 pickets, limited production had been resumed.

The union called the strike seeking a seventy-five cents an hour minimum wage, compared with the present fifty cents an hour plus a ten cents an hour wage increase for all workers.

Col. Branshaw notified Robert B. Patterson, undersecretary of war, who relayed word to President Roosevelt, that the strike virtually had been broken, and he expected production to be practically normal by tomorrow. The plant has orders for \$196,000,000 of warplanes.

Stephen Early, secretary to the president, said Mr. Roosevelt was delighted at the news.

Colonel Branshaw said about 2,000 workers had returned to their jobs—at the prevailing wage scale. The company employs 12,000.

"These men are now working for the United States government," said Colonel Branshaw. "I am in complete charge of the plant and the company officials are under my supervision and jurisdiction."

A reporter asked if there would

be any negotiations with the CIO.

### Negotiations Unlikely

"I see no need for any negotiations," Col. Branshaw answered. "All workers have been invited and requested to return to their jobs."

Pickets who were driven away from the front of the plant were exhorted to stay home, nevertheless.

Strike leaders blared at them from sound trucks: "Don't worry about this. We're still the men who have to build the airplanes. The government and the management want the planes. If we hold out we'll get seventy-five cents an hour or more. The army can't make airplanes."

The army came to stay and see it through. Executives of the airplane factory have been living in the plant since the strike started and now Col. Branshaw and his staff will make their quarters there. The troops pitched their tents inside the company's property and provisions were brought in to feed them for several days.

The occupation, completed with the simplicity of a routine maneuver, climaxed five days of tension, during which the strikers resisted pleas of their own national CIO officers to return to work.

Determined pickets who had battled furiously in two clashes with groups of workers attempting to pass through the lines, gave way with little or no resistance before the long line of khaki-clad troops.

### Striker Wounded

One defiant striker refused to give ground. A bayonet slashed through his thigh. He was taken to a hospital. The CIO said two other strikers were slightly injured by bayonets.

A few pickets tried to argue with the soldiers but not a trooper spoke and fixed bayonets discouraged the solid phalanx massed about the gates.

Once inside the plant, Col. Branshaw invited the nine-man negotiating committee of the United Auto Workers to a conference. Escorted through the gates by troops, the committee conferred for more than an hour.

Col. Branshaw was not prepared to discuss our demands," said Lew H. Michener, UAW west coast director, when the conference ended.

"We told him we'd be glad to negotiate so long as we got seventy-five cents an hour minimum in place of the present fifty, and a ten-cent increase for all. We promised to meet him again."

### Would Accept U. S. Pay

He declared he had proposed to the military that the strikers return to work at the same wage scale the government pays mechanics for keeping naval airplanes in condition at the San Diego naval base. This, he said, is 87½ cents an hour, or 12½ cents above the seventy-five originally asked of the company. He did not explain the discrepancy.

Michener also said he had protested to military authorities that "innocent, unarmed people were being subjected to points of bay-

## Attack on Syria Angers Italians

Mussolini May Discuss Invasion in Speech Today

ROME, June 9 (AP)—Fascist circles expressed anger today over the British invasion of Syria and awaited a probable speech by Premier Mussolini tomorrow to mark the beginning of Italy's second year of war.

Preparations were made for a solemn ceremony in the chamber of fates and Guilds at 5 p. m. (10 a. m. E.S.T.)—almost the corresponding hour that the premier announced his declaration of war on Britain and France last June 10.

It was not certain whether Mussolini would speak.

The premier in a tribute to the Italian navy today said the war was now "one between two worlds" and is "at one of its most decisive moments."

Italy's "successes"—with German aid—against France, Greece and Yugoslavia are to be commemorated tomorrow.

Fascist newspapers predicted England's invasion of Syria will prove "a new error" and will only "delay her defeat several months." London soon will learn the "great and unforeseen effects" of its move which was termed "brutal and criminal aggression."

onets for exercising their constitutional rights."

The fighting that preceded the troops' occupation was frenzied while it lasted, but it was all man-to-man encounter. No clubs were used. There were 500 pickets stationed in front of each of the two entrance gates and about 2,000 workers, many of whom shouted they wanted to go back to work.

Mayor Fletcher Bowron asked one group of about 7,000 if they desired to enter the factory.

There was a shout, "we want to get back."

### CIO President Belligerent

"You mean you want to be scabs," shouted Phillip M. Connelly, California CIO president.

Mayor Bowron told the men they were entitled to peaceful entrance. There were 600 police, state highway patrolmen and sheriff's officers ready to open a wedge for the returning workers but President Roosevelt's order to the troops made interference by local authorities unnecessary.

Tear gas bombs suddenly crashed into the picket line, before the troops arrived, from the top of one of the factory buildings. Several of the bombs were tossed back onto company property, but others, exploding near the pickets, caused a retreat and broken lines, through which dashed about a score of workers.

There was another rush for the gates, but the pickets gave battle, reformed their lines. Six persons were injured.

"The troops are coming," was the word passed down the line.

That ended the fighting as pickets and workers retreated to watch the troops come in.

"Sorry, I'm not going—I'll be shopping instead!"

"His speech at the luncheon is going to be about advertising, and I know just what he's going to say. I've read his book."

"He's against advertising . . . says it adds to the cost of living . . . that it misleads and deceives the public."

"Tommyrot! Dad's first car cost more than two thousand dollars. Ours cost less than half that much and it's a better car."

"Our first package of corn flakes was fifteen cents. Now you get two bigger packages for fifteen cents and they reach us fresher and crisper."

"Mother wore silk stockings only on Sundays because they cost so much. I wear them every day!"

"I think he's all wet. I wouldn't enjoy his speech. The only ad I ever read that sold me a poor bill of goods was the one about his book."

Venomous books and speeches, in which radical agitators attack advertisers, have been much in fashion these last few years. But the novelty is wearing off and interest wanes as one after another of the attackers figures prominently in the findings of the Dies Committee.

Advertising is not a sinister something to suspect. It is just a part of selling, a proved method of increasing business activity—a condition that we're always eager to see. It has introduced new luxuries and improved necessities in towns and villages at the same moment as in the great metropolitan centers. It has played a leading part in lifting home drudgery from the backs of women, putting the nation on wheels, improving diet, hygiene and appearance. By stimulating mass production it has brought down the cost of things we buy.

It has helped keep our factories busy, our people at work.

Let's cheer advertising on. Help it to give added impetus to a reviving prosperity. What helps advertising helps you.

## Kempton Will Hold School Activities

### Class Night Exercises To Be Held Tonight in Community Hall

KEMPTON, Md., June 9 — The annual baccalaureate sermon to Kempton high graduates was delivered Sunday evening at 8 o'clock in the Community hall by the Rev. Glenn D. Watts of Davis, W. Va. Music was directed by Charles Williams, and accompanied by Miss Burnetta Arnold.

### Seniors Take Trip

Marie Lewis, Bonnie Lewis, Ella Jean Beckman, Marie Hilton, Dale Duling, Alvin Lantz, Jr., and George Kucaba, members of the senior class, accompanied by Asa Lewis, principal, and Robert Sprague, assistant, went to Washington D. C. Thursday night, on a sight-seeing trip. They returned Sunday evening.

### Class Night Exercises

The seniors will hold their annual class night exercises on Tuesday evening, June 10, Dale Duling will give the valedictory address and Alvin Lantz, Jr., the salutatory.

### Commencement Exercises

The tenth annual commencement of the Kempton high school will be held in the Community hall, Thursday, June 12, at 8 p. m. The Rev. Garrett H. Evans, Mt. Lake Park, will deliver the address to the graduates.

### Picnic Is Held

Mrs. Asa Lewis entertained the members of the Ever Ready Sunday School class, of which she is teacher, with a picnic on Saturday afternoon. The young folks played games, sang, and held a winner and marshmallow roast.

Those present were Ruby Dice, Shelley Knotts, Betty Lewis, Mary B. and Sue Hamblenton, June Reed, Marion Mullenex, Carolyn Lewis, Doris May Lewis and Jean Welch.

### Revue Is Held

Mrs. Asa Lewis, Mrs. Jennie Ryan, Mrs. B. P. Willis, Mrs. L. W. Duling and Mrs. Joseph Geroski attended the Homemakers' Style Revue held at the Miller home near Accident on Thursday afternoon. Miss Mildred Barton and Miss Shelby of the University of Maryland, and Mrs. Maker, assistant county clothing chairman, were in charge. Mrs. B. O. Aiken and Mrs. Harold Miller presided at the table.

### Personals

Mr. and Mrs. G. P. Smith and Miss Lavine Hartman attended a Masonic banquet in Thomas, Saturday evening.

Mrs. B. P. Willis and Mrs. Helen Cochran are visiting in Akron.

Mrs. Jennie Ryan visited her niece who is a patient in Miner's hospital, Frostburg, Sunday.

Mr. and Mrs. Leslie Ryan and three sons and Mr. and Mrs. Robert Jackson and son of Sabaton, W. Va., were recent guests here.

Mr. and Mrs. Richard Ryan visited in Cumberland Saturday.

Mr. and Mrs. Robert Turek announce the birth of a son.

### Mt. Savage Lodge

(Continued from Page 11)

Percy C. Adams, Holy Communion will be held at 7 o'clock on these mornings instead of 9:15 as previously announced.

### Personals

Mrs. James Mason, Lonaconing, Mrs. John Menten, Mt. Vernon, Ohio, and Mrs. Martin Mills, Keyser, W. Va., are visiting Mrs. Thomas Adams.

Mr. and Mrs. Cecil Sampson have moved into their recently purchased home near Frostburg. The place was at one time the toll gate house and is a well known historical landmark in the county. Mr. and Mrs. Sampson have been residing with Mr. Sampson's parents, the Rev. and Mrs. George D. Sampson.

Miss Kathryn Wilson R. N. is in Bedford, Pa.

Mr. and Mrs. John Hawks returned yesterday after spending several days in Baltimore.

Mr. and Mrs. Francis O'Rourke returned to Pittsburgh yesterday after visiting Mr. and Mrs. Patrick O'Rourke.

Mr. and Mrs. Ernest Trimble, Pittsburgh, spent the weekend with relatives here.

Mrs. William Ewald is visiting friends and relatives in Washington, D. C.

Miss Mary Edith Fannon, Washington, is spending several weeks with relatives here.

The Rev. and Mrs. Paul Sampson, Union Bridge, are spending the week visiting the Rev. and Mrs. G. D. Sampson.

Mrs. Theopila is ill at her home in Church hill.

Miss Kathleen Moran left yesterday to accept a position in Washington.

Mrs. Stewart Church, who has been a patient at Miners hospital, Frostburg, for the past week, is improving.

Miss Rosemary Noonan, student at Notre Dame college, Baltimore, is spending the summer vacation with her parents, Mr. and Mrs. Joseph Noonan.

The Rev. and Mrs. George D. Sampson and Mrs. J. Orville Kefauver returned from Baltimore yesterday after attending the annual conference of Methodist clergy.

Miss Mariana Trimble is improving at Miners hospital, where she underwent a major operation last week.

ington, is spending several weeks with relatives here.

The Rev. and Mrs. Paul Sampson, Union Bridge, are spending the week visiting the Rev. and Mrs. G. D. Sampson.

Mrs. Theopila is ill at her home in Church hill.

Miss Mariana Trimble is improving at Miners hospital, where she underwent a major operation last week.

### Miss Olive

(Continued from Page 11)

Out of town guests were Mr. and Mrs. G. B. Ryland, Mr. and Mrs. Harry H. Ryland, Mr. and Mrs. Harry M. Ryland, and Mr. and Mrs. Jorgenson, Pittsburgh; Miss Lillie Younk, Grantsville; Dr. and Mrs. Gorman E. Getty, and Dr. and Mrs. Don Taylor, Lonaconing; Mr. and Mrs. N. E. Kefauver, Middletown, Md.; Mr. and Mrs. William Clair, S. Cumberland; Mr. and Mrs. C. Bertram Clair, Harrisburg; and Mrs. Ida Everett, Mount Pleasant.

### Have Daylight Tim

The entire county of Tucker is on day light saving time except the city of Parsons, and 2 industries, the Wooden Mills, and Tannery.

The Tucker county court voted to accept daylight saving time that should have gone into effect on Saturday night at midnight, but the Parsons city council has failed to vote on it yet. They discussed the issue at a meeting on Friday night but reached no decision and are now awaiting a call meeting by the Mayor, James Parsons to vote on the issue.

The towns of Hamblenton and Hendricks went on the new time effective Saturday night. All industries and stores in Thomas are now on the new time, according to Mayor G. E. Mosser and Mayor Robert Reese stated that all industries in Davis, including the Davis Coal and Coke company are now on daylight saving time.

The town clock in Parsons is now set for the new time and the Court House force, all stores, the state road and the WPA employees are now adding by the new time.

Surviving are his widow, Mrs. Malinda (Bittner) Geiger and several children. Funeral arrangements are incomplete.

Those present were Ruby Dice, Shelley Knotts, Betty Lewis, Mary B. and Sue Hamblenton, June Reed, Marion Mullenex, Carolyn Lewis, Doris May Lewis and Jean Welch.

Mr. and Mrs. G. P. Smith and Miss Lavine Hartman attended a Masonic banquet in Thomas, Saturday evening.

Mrs. B. P. Willis and Mrs. Helen Cochran are visiting in Akron.

Mrs. Jennie Ryan visited her niece who is a patient in Miner's hospital, Frostburg, Sunday.

Mr. and Mrs. Leslie Ryan and three sons and Mr. and Mrs. Robert Jackson and son of Sabaton, W. Va., were recent guests here.

Mr. and Mrs. Richard Ryan visited in Cumberland Saturday.

Mr. and Mrs. Robert Turek announce the birth of a son.

Mr. and Mrs. Cecil Sampson have moved into their recently purchased home near Frostburg. The place was at one time the toll gate house and is a well known historical landmark in the county. Mr. and Mrs. Sampson have been residing with Mr. Sampson's parents, the Rev. and Mrs. George D. Sampson.

Miss Kathryn Wilson R. N. is in Bedford, Pa.

Mr. and Mrs. John Hawks returned yesterday after spending several days in Baltimore.

### Have Daylight Tim

The entire county of Tucker is on day light saving time except the city of Parsons, and 2 industries, the Wooden Mills, and Tannery.

The Tucker county court voted to accept daylight saving time that should have gone into effect on Saturday night at midnight, but the Parsons city council has failed to vote on it yet. They discussed the issue at a meeting on Friday night but reached no decision and are now awaiting a call meeting by the Mayor, James Parsons to vote on the issue.

The towns of Hamblenton and Hendricks went on the new time effective Saturday night. All industries and stores in Thomas are now on the new time, according to Mayor G. E. Mosser and Mayor Robert Reese stated that all industries in Davis, including the Davis Coal and Coke company are now on daylight saving time.

# Cards Ride Back into National League Lead

## Selback Shoves Brooklyn Crew Out of No. 1 Slot

World Champions Move to Within Half-Game of First Place

BROOKLYN, June 9 (AP)—The red hot Cincinnati Reds pulled another victory out of the fire today with a lightning fast finish that beat Brooklyn 9 to 7 and dropped the Dodgers out of the National League lead.

It was the eighth triumph in ten games for the world champions and moved them within half a game of third place.

After being shut out for six innings on one hit the Reds took advantage of every break to score three times in the seventh, four in the eighth, and twice in the ninth as the Dodgers desperately paraded three pitchers to the relief of chubby Hugh Casey.

The Dodgers took a lead in the fourth when Babe Phelps slashed a home run for three tallies. They added two more in the sixth on Phelps double, a fielder's choice and three singles. They were given their final pair in the seventh by Whitney Moore, who loaded the bases with two walks and a hit batsman ahead of a strike by Jim Wadell, his third straight hit.

Casey came apart completely in the seventh. Eddie Joost doubled, Jim Rippie walked, Ernie Koy doubled for one run and Ernie Lombardi singled for two.

Curt Davis was no better in the eighth, giving a double to Bob Matlack, a pinch single to Harry Craft, a triple to Joost and Lonnie Frey's fifth home run of the year—the combination good for four runs and a tie score.

Bill Swift put out this blaze, but with Kirby on duty in the ninth and one out, Shortstop Pee Wee Reese made a two-base over-the-throw of first. Higbe fanned Pinch-Hitter Eddie Shokes fresh from Duke University, then walked Joost and Frey doubled for the two winning runs. The boxscore:

CINCINNATI	AB	R	H	O	A
Joost, 1b	4	2	3	1	0
Rippe, 2b	4	1	2	1	0
Koy, 3b	4	1	2	1	0

## BOSS OF BROWNS

By Jack Sords

LUKE SEWELL, NEW MANAGER OF THE ST. LOUIS BROWNS, REPLACING FRED HANEY

LUKE WAS ONE OF THOSE RARE PLAYERS WHO REQUIRED NO MINOR LEAGUE SEASONING. HE JOINED THE CLEVELAND INDIANS DIRECT FROM THE UNIVERSITY OF ALABAMA

HE ALSO SAW SERVICE WITH WASHINGTON, CHICAGO WHITE SOX AND BROOKLYN, RETURNING TO THE INDIANS IN 1939 AS A PLAYER-COACH

## Sprint Champion Caught by Draft

Penn State's Barney Ewell Ordered To Report Early Next Month

STATE COLLEGE, Pa., June 9 (AP)—Army service may suspend Barney Ewell's track career just as he is approaching his peak, but the Penn State sprint champion said today "I'm ready to do my duty."

Ewell, only athlete to win three I. C. 4-A titles two years in succession and defending sprint champion in the national collegiate meet at Palo Alto, Calif., June 20-21, has been notified by his selective service board to report early next month.

"If folks think our country is in danger, I'm ready to do my duty," the "Brown Bullet" said philosophically. "I guess that's more important than athletics."

Ewell, a junior with another year of collegiate competition ahead of him, is just coming into his own as a track star, in the opinion of his coach, Chick Werner, one time Illinois hurdle star.

"Barney is the greatest competitor I have ever seen in track," Werner declares enthusiastically. "With one more year of competition, I honestly believe Ewell would establish himself as the world's fastest human."

For a guy who hasn't yet hit his peak, Ewell has done pretty well. In addition to his N. C. A. A. and I. C. 4-A sprint titles and the broad jump crown of the latter association, Barney was national A. U. U. 200-meter champion two years ago and has won indoor sprint and broad jump honors. He's been timed at 9.6 for the 100 four times this year.

Ewell will make one more appearance in addition to the N. C. A. A. meet before reporting to selective service offices. He'll seek the National A. A. U. 100 and 200-meter titles at Philadelphia June 28-29.

## Cumberland Colts' Protest Is Denied

The Bi-State Baseball League, at a special meeting last night at the Central Y. M. C. A., threw out the Cumberland Colts' protest of a game won by Frostburg, May 25, at Frostburg and the contest will stand as played—a 3-2 triumph for the American Legion crew.

The Colt management contended the winning run was scored on an illegally batted ball with "Jagers" Drew. In the process of receiving an intentional walk following "Bee" Scarpelli's triple, stepping across the plate and hitting a fly ball to right with Scarpelli trotting home after the catch.

Production of bar toilet soap exceeds 400,000,000 pounds annually and white and yellow bar laundry soap exceeds 1,200,000,000 pounds, according to the Census bureau.

## Cubs Get 21 Hits To Blast Braves

Charlie Root Coasts to Victory with Stringer Leading Attack

BOSTON, June 9 (AP)—Forty-two-year-old Charlie Root coasted to an easy victory today as his Chicago Cub teammates bombarded four Boston pitchers for twenty-one hits in capturing their third decision in the four-game series, 13-6.

Every Cub hit safely. Louis Stringer, with four for five, including a double, and tiny Dom Dallesandro, who collected a single, double and homer, led the assault. The boxscore:

## Delacel Crew Near First Half City Loop Title

Lacy's Outfit Tops West Side 3-2—Bakers Shade Post's 9-8

CITY SOFTBALL LEAGUE  
STANDING OF CLUBS

Club	W.	L.	Pct.
Delacel	10	2	.833
West Side	8	2	.800
North End	5	6	.455
Post	4	7	.364
Golden Bakers	3	8	.273

Lacy's Delacel moved closer to the first half championship of the City Softball League by nailing out the second-place West Side Merchants 3-2 yesterday on the South End field. With four more games to play, the Delacelers are three and one-half games ahead of the Merchants.

Jim Roby, Lacy hurler, gave up ten hits while his mates garnered but four from the offerings of Dawson, who went the route for West Side, but good support and some tight pitching in the pinches enabled Roby to weather the storm.

Lacy's Win in Fifth  
Each team counted once in the third, West Side on an error, Cook's sacrifice and singles by Dawson and J. Fisher, and the Delacelers on a single by "Dink" Lapp, Roby's sacrifice and "Pooch" Orndorff's single.

West Side went ahead 2-1 in the first of the fifth on consecutive singles by J. Fisher, James and Clark, but lost the game in the last of the same frame when the Delacelers showed against two counters. D. Lapp walked, Roby singled sacrificed, "Bee" Orndorff singled, Athey walked and Sarver singled home the winning tally.

Bakers' Top Post's  
Roby struck out five and issued three bases on balls while Dawson failed to send a third-strike pitch across and walked a half-dozen.

"Bee" Orndorff, "Pooch" Orndorff, Sarver and D. Lapp accounted for the Delacelers' hits while J. Fisher, James, Clark and Mont each had two for West Side.

In yesterday's other clash, the Golden Bakers edged out Post's 9-8 on the East Side field by scoring two runs in the last of the seventh after the Post crew had counted six times in the first part of the last frame for an 8-7 advantage.

Underdonk had a homer in the seventh and Barkman hit the distance in the second for Post's while Day had four for four for the Bakers. The scores:

GOLDEN BAKERS	AB	R	H	O	A
Post, 1b	4	1	0	1	0

# Reds' Lightning Finish Beats Dodgers, 9 to 7

## Gumbert Checks New York Giants With Four Hits

## Timely Punching, Dodgers' Defeat Puts Red-birds Back on Top

NEW YORK, June 9 (AP)—The St. Louis Cardinals, combining Harry Gumbert's four-hit pitching with timely hitting and Brooklyn's defeat, rode back into first place in the National League pennant race today with a 5 to 2 victory over the New York Giants.

Gumbert, adding to Bill Terry's regrets about the deal that sent him from the Giants to St. Louis in a trade for Bill McGee, held his former teammates to one hit for five innings and checked them in the sixth when they loaded the bases on two walks and an error after two were out. The victory was Gumbert's fifth since going to St. Louis and his sixth of the season. The lineup:

NEW YORK	AB	R	H	E	A
Brown, 3b	5	0	2	2	0
Moore, cf	5	0	1	0	0
Comp, 1b	5	0	1	0	0
Laughlin, 2b	5	0	1	0	0
Crane, 3b	5	0	1	0	0
Tramm, 1b	5	0	1	0	0
Johnson, c	5	0	1	0	0
Gumbert, p	5	0	1	0	0
Totals	35	0	12	2	0

ST. LOUIS	AB	R	H	E	A
Brown, 3b	5	0	2	2	0
Moore, cf	5	0	1	0	0
Comp, 1b	5	0	1	0	0
Laughlin, 2b	5	0	1	0	0
Crane, 3b	5	0	1	0	0
Tramm, 1b	5	0	1	0	0
Johnson, c	5	0	1	0	0
Gumbert, p	5	0	1	0	0
Totals	35	0	12	2	0

NEW YORK, June 9 (AP)—Non-readers of "The New Yorker" (a publication) fail to realize, likely as not, that there is a sizzling debate in progress as to whether a pitcher can throw a curve ball. For the first time in many years, the curve ball editor of "The New Yorker" is earning his salary. This fellow, a political appointee, used to sit around six days a week with his feet on the desk, rising only to get a cup of champagne at the cooler down the hall or to draw his princely wage. Suddenly he has broken loose. The curve ball editor is swamped with communications.

It's an industry

There seems to be a school of thought which holds that the curve is superstition. Other readers write in to say that the tangibility of the curve has been proved, with pegs stationed at strategic spots around which the ball curves. The Freudian school replies that the peg people just think they see the ball curving. Imagination is what does it. Or auto-suggestion. Or too much cider in the middle of the day.

It's a good thing the average ball player reads "The Sporting News" instead of "The New Yorker." It would come as a terrible shock to a thousand hitters in organized baseball, young and old, to know that all the stuff the pitchers are throwing in there is just as straight as a string.

It would be a shock to some of the pitchers, too. I know pitchers who pride themselves on their No. 2, or curve ball, to such an extent that they refer to it affectionately as the "old jug"—the jug-handle. To avoid hurting the feelings of these boys, jug-makers will have to develop a new kind of handle, at right angles to the jug.

Way Managers Reason

It's amazing the way the superstition about the curve ball has taken hold in baseball. Managers and similar strategists have built up a complete cult, or black art, of maneuver based on the curve. They will all lose their jobs if some blabbermouth who can't keep a secret gets hold of a copy of "The New Yorker."

Managers reason—or pretend to reason—like this:

The curve is opposed to the screwball breaks from right to left when a right-handed pitcher throws it. The left-handed curve breaks from left to right.

It is easier to hit a ball which breaks in to meet your bat than a ball which breaks away.

Right-handed hitters therefore hit best against left-handed pitchers, and vice versa.

The Tragedy of It

So strong is this ancient belief that a manager will juggle his whole lineup to pit the maximum of right-handed batting strength against a southpaw. Switch-hitters—men who can bat either way—unavoidably go left-handed against a right-handed pitcher. When a right-handed pitcher relieves a left-handed, the rival strategist will yank the regular batsman, if right-handed, in favor of a left-handed pitcher.

It breaks your heart to think that all this is rigmarole and idol-worship, as hollow as the mumbo-jumbo of the Druids.

It grieves you to remember that Jim Thorpe, the world's greatest athlete, was turned out of baseball because he couldn't hit curve balls. And all the time there were no curve balls. That's ironical. That's bitter.

Murphy Figured It Out

Your correspondent is bitter, too. Curve balls—or what I thought were curve balls—kept me from getting even as far as Thorpe got. It's funny about these superstitions. They must be congenial. I had never heard of the curve ball the first time I went up to the plate against a good schoolboy pitcher.

He threw right at me. I stepped back. The ball cut the heart of the plate. Or it seemed to. Auto-suggestion by hereditary impulse. I guess it was. But it looked like a curve ball.

Down in training camp one spring, I took a practice lick at the bat against Johnny Murphy of the Yankees. He threw one right at my head. Thinking there must be something about it, I didn't flinch, at least, not very much. The ball hit the dirt two feet wide of the plate. I figured it had curved three feet.

## From the PRESS BOX

By JOHN LARONER

North American Newspaper Alliance.

## Is There a Curve Ball, Or Are Batters Batty?

NEW YORK, June 9 (AP)—Non-readers of "The New Yorker" (a publication) fail to realize, likely as not, that there is a sizzling debate in progress as to whether a pitcher can throw a curve ball. For the first time in many years, the curve ball editor of "The New Yorker" is earning his salary. This fellow, a political appointee, used to sit around six days a week with his feet on the desk, rising only to get a cup of champagne at the cooler down the hall or to draw his princely wage. Suddenly he has broken loose. The curve ball editor is swamped with communications.

It's an industry

There seems to be a school of thought which holds that the curve is superstition. Other readers write in to say that the tangibility of the curve has been proved, with pegs stationed at strategic spots around which the ball curves. The Freudian school replies that the peg people just think they see the ball curving. Imagination is what does it. Or auto-suggestion. Or too much cider in the middle of the day.

It's a good thing the average ball player reads "The Sporting News" instead of "The New Yorker." It would come as a terrible shock to a thousand hitters in organized baseball, young and old, to know that all the stuff the pitchers are throwing in there is just as straight as a string.

It would be a shock to some of the pitchers, too. I know pitchers who pride themselves on their No. 2, or curve ball, to such an extent that they refer to it affectionately as the "old jug"—the jug-handle. To avoid hurting the feelings of these boys, jug-makers will have to develop a new kind of handle, at right angles to the jug.

Way Managers Reason

It's amazing the way the superstition about the curve ball has taken hold in baseball. Managers and similar strategists have built up a complete cult, or black art, of maneuver based on the curve. They will all lose their jobs if some blabbermouth who can't keep a secret gets hold of a copy of "The New Yorker."

Managers reason—or pretend to reason—like this:

The curve is opposed to the screwball breaks from right to left when a right-handed pitcher throws it. The left-handed curve breaks from left to right.

It is easier to hit a ball which breaks in to meet your bat than a ball which breaks away.

Right-handed hitters therefore hit best against left-handed pitchers, and vice versa.

The Tragedy of It

So strong is this ancient belief that a manager will juggle his whole lineup to pit the maximum of right-handed batting strength against a southpaw. Switch-hitters—men who can bat either way—unavoidably go left-handed against a right-handed pitcher. When a right-handed pitcher relieves a left-handed, the rival strategist will yank the regular batsman, if right-handed, in favor of a left-handed pitcher.

It breaks your heart to think that all this is rigmarole and idol-worship, as hollow as the mumbo-jumbo of the Druids.

It grieves you to remember that Jim Thorpe, the world's greatest athlete, was turned out of baseball because he couldn't hit curve balls. And all the time there were no curve balls. That's ironical. That's bitter.

Murphy Figured It Out

Your correspondent is bitter, too. Curve balls—or what I thought were curve balls—kept me from getting even as far as Thorpe got. It's funny about these superstitions. They must be congenial. I had never heard of the curve ball the first time I went up to the plate against a good schoolboy pitcher.

He threw right at me. I stepped back. The ball cut the heart of the plate. Or it seemed to. Auto-suggestion by hereditary impulse. I guess it was. But it looked like a curve ball.

Down in training camp one spring, I took a practice lick at the bat against Johnny Murphy of the Yankees. He threw one right at my head. Thinking there must be something about it, I didn't flinch, at least, not very much. The ball hit the dirt two feet wide of the plate. I figured it had curved three feet.

So, like a chump, did Murphy. So, like a chump, did I. I suspected that later events would prove that it traveled straight as a line. "The New Yorker" thesis about the curve, the sorer I feel for Mr. Thorpe and me and the other suckers who thought they couldn't hit the thing we thought was there but wasn't.

## Race Entries, Selections, Results and Scratchers

WHEN A NOSE WAS WORTH \$652.40 TO RACE FANS

Nearing the finish of that eighth race at Lincoln Fields (Chicago) race track which sent a handful of bettors home deliriously happy, Meadow Money (No. 5), ridden by Jockey P. Farrell, is winner by a nose over Agronomy and returns \$652.40 at the initial windows. Only \$45 was bet to win on Meadow Money, a three-year-old daughter of Burgoyne King, 1932 Kentucky Derby winner.

## Cement Company Buildings Are Damaged by Fire

Frame Structures on North Centre Street Scene of Big Blaze

Fire of undetermined origin last night gutted the frame buildings of the Cumberland Cement and Supply Company, rear of 419 North Centre street, and damage by water to products in one section of the plant was extensive company officials said.

Disclosure of the blaze came when flames shot high into the air from the wooden building in which it started. The flames were visible from many parts of the city. Officer Thomas T. Griffin was on his beat at Fairview avenue when he noticed the flames about 10:05 p. m. The high silo-like cement storage structures were between him and the fire but he could still see the flames he added.

Three fire companies, Central, East Side and West Side answered the alarm and after fighting the flames for about an hour brought the fire under control. Paul E. Gorman, of Engine Company No. 3, suffered a lacerated right hand when flying glass hit him as he attempted to force a door of a garage adjacent to the burning building. He was treated at Allegheny hospital.

Firemen remained in the buildings for several hours last night after bringing the flames under control to prevent any new outbreak. The main body of the fire was confined to the frame section and the cement structure of the main storage buildings prevented any break-through into that section.

George K. Steiner, general manager of the company, said although no definite checkup had been made the damage would probably be "extensive." Insurance covered any loss, he added. Neither he nor firemen were unable to figure out just what caused the blaze.

Hundreds of spectators were at the scene of the fire and police had a hard time keeping them away from the danger zones.

## LOCAL PHYSICIAN TO HELP FIND DOCTORS FOR ARMY DUTY

BALTIMORE, June 9 (AP)—Lieut. Col. Amos R. Koonitz, Selective Service medical director, today announced appointment of four groups of physicians to determine doctors who can be spared by Maryland hospitals to relieve a shortage of medical officers with the armed forces.

Colonel Koonitz said the groups would act as subcommittees of the Committee on Medical Preparedness of the Medical and Chiropractic Faculty of Maryland.

Dr. Walter D. Wise, chief surgeon of Mercy hospital, heads the Baltimore group. Others are: Western Maryland; Dr. Peregrine Roth of Hagerstown; chairman, Dr. A. H. Hawkins of Cumberland; Dr. Victor Cullen of Sabillasville; Dr. Edward Thomas of Frederick; and Dr. George H. Preston of Baltimore.

Eastern Shore: Dr. William D. Noble of Easton, chairman; Dr. R. M. Nook of Salisbury; Dr. John P. Schneider of Cambridge; Dr. William Hammond of Easton; and Dr. A. C. Dick of Chestertown.

Southern Maryland: Dr. Reed Calvert of Silver Springs, chairman; Dr. J. W. Bird of Sandy Springs; and Dr. Oliver Purvis of Annapolis.

Each Maryland hospital has been asked to submit a list of house physicians, divided into those irreplaceable and others who could be taken into the armed forces. Those available will be offered reserve commissions.

## Steinla May Build Two-story Garage

Considers Changing Plans for New Structure on Frederick Street

Ervin Steinla, president of the Steinla Motor and Transportation Company, 133 South Mechanic street, yesterday obtained a permit from the city engineer for the erection of a \$22,000 one-story public garage on the Southern corner of Frederick street and Valentine avenue, but last night he discovered that the proposed new structure will not contain enough floor space and now has under consideration the addition of a second story.

Steinla said that the permit obtained yesterday calls for a one-story structure 180 feet long and 110 feet wide, of brick and steel with a rock and concrete foundation. He plans to confer with representatives of the Butler Manufacturing Company, of Kansas City, Mo., contractor, within the next few days relative to the addition of a second floor, 180 feet long and 70 feet wide. An additional story will boost the cost to approximately \$30,000.

Fire on March 9 damaged the Steinla establishment on South Mechanic street to the extent of \$31,000 but the building has been remodeled in recent weeks.

Pern E. Wilson, of 242 Bond street, received a permit from the city engineer for the construction of a one and a half story frame house on lots four and five, Caroline street. The cost is approximately \$2,750. Ed Grimm is the contractor.

## Pool at Constitution Park Will Be Opened This Week-end

Water will be turned into the pool in Constitution park tomorrow and the swimming season will get under way on either Saturday or Sunday, William R. E. King, pool manager, announced last evening.

The official opening date was scheduled for last Sunday but a postponement was necessary due to the fact that the heavy rains for several days prevented the painting of the pool.

In the past several days, however, the pool has been painted a sky blue and other improvements include the painting of the fence surrounding the swimming layout in aluminum.

## History of Flag Given by Hetzel At Exchange Club

Deep Creek Outing Fixed for June 28-29; Election Scheduled June 30

Fred Z. Hetzel, newly-elected vice-president of the Maryland Junior Chamber of Commerce, spoke on the "History of the American Flag" last evening at the regular weekly dinner meeting of the Exchange Club in the Central Y. M. C. A.

Hetzel's interesting talk was in conjunction with the observance of Flag Week which opened here Sunday and will be concluded Monday, June 16.

Charles George, president of the club, announced that members, their wives and friends will hold a weekend outing to Deep Creek Lake in Garrett county, Saturday and Sunday, June 28 and 29.

Karl G. Perry was named chairman of the nominating committee in connection with the club's annual election of officers which will be held Monday, June 30. Other members of the committee are Thomas Brown and Edward Cosgrove. The newly-elected officers will take over their duties Monday, July 7.

C. Athey Murray, chairman, announced that a third attempt to stage the model airplane contest, twice postponed on account of inclement weather, will be made Saturday, June 14, at 9 a. m., at the Mexico Farms airport. Fifty model planes will be entered in the competition.

## Forty and Eight Group To Attend Somerset 'Wreck'

Chef de Gare Abrams Will Head Local Convoy to Initiation

Members of Cumberland Volture No. 164, Forty and Eight Society, fun-making branch of the American Legion, have accepted an invitation to attend the "wreck" or initiation ceremonies of Volture No. 609, tonight at the Somerset, Pa., country club, and now they're wondering if there is a double meaning in the request that they "bring their golf clubs with them."

A number of the local voyageurs are golfers and they are planning to use their clubs on the country club course while others are wondering if they should borrow clubs to use on the "poor goods" (that's the proper term for new members of the Box Car Society) on the group to be initiated.

The ceremony will be held at 7:30 o'clock and the local convoy headed by Wesley H. Abrams, chef de gare, will leave for the Pennsylvania town at 6:30 o'clock from the American Legion home.

Voyageurs who have signed up for the trip are Isadore Kamens, Robert C. Bowers, Harry G. Spiker, W. Earle Brooks, Nat Guggenheimer, Newt Parish, R. M. Kerns, Claude L. Deal, William Fletcher, Joseph M. Fradiska, John Nelson, and Benjamin Ryan. Others may join the party by the time it departs.

## Treatments for Crippled Children To Be Given in New Headquarters

Will Be Inaugurated Friday; City Spends \$3,000 for Remodeling

The Allegheny County League for Crippled Children will inaugurate treatments at its new headquarters on Bedford street, adjoining the Central fire station, Friday morning, it was announced yesterday by Miss Vivian Lambert, executive secretary.

Miss Lambert said that all equipment has been removed from the former office on Pershing street to the new and roomy quarters and the formal dedication of the Bedford street building will not be held until the next appearance here of Dr. George E. Bennett, president of the Maryland League for Crippled Children.

**MEMORIAL NURSES GRADUATE**—Ten young women graduated last night from the Memorial Hospital School of Nursing after completion of a three-year course of instructions and practical training. The exercises were held in Centre Street Methodist church with Charles J. Cotter, superintendent of the Washington county hospital, Hagerstown, the principal speaker. Diplomats were presented by Harvey H. Weiss, superintendent of Memorial hospital. Mrs. Mary E. Freed, R.N., supervisor of nurses, presented the graduates with the nursing school pins. Miss Margaret Durst, president of the nurses alumnae association, delivered greetings to the class. The graduates are, from left to right, seated, Mabel Adella Ernst, Amy Jewell Alexander, of Green Spring, W. Va.; Virginia Dare Smith, of Akron, O.; Betty Josephine Valentine, and Pauline Majorie Hendershot, of Everett, Pa. Standing, from left to right are Alma Delores Smith, Naomi Catherine Streiby, Edna Marie Browning, Sarah Margaret Berkley, Meyersdale, Pa.; and Laura Althea Pile, of Freidens, Pa.

## Firemen Offer 20 Cash Prizes For Convention

\$575 Offered for Parade June 20; \$185 for Contests at Stadium

Twenty cash prizes amounting to \$575 will be offered to fire companies, auxiliary units and musical organizations participating in the parade and contests at Fort Hill stadium, Friday, June 20, in conjunction with the forty-ninth annual convention of the Maryland State Volunteer Firemen's Association which opens here Monday, June 16.

The parade will start at Paca street at 3 p. m., and the procession will wind its way to Laine avenue thence to the Fort Hill stadium where the contests will get under way at 5 p. m.

The following prizes will be awarded for the parade only:

- Company coming greatest distance with band — \$50.
- Company making the best appearance in line — \$35.
- Company with most men in line — \$25.
- Best senior band in line — \$25.
- Best junior band in line — \$25.
- Best senior drum corps in line — \$25.
- Best junior drum corps in line — \$25.
- Auxiliary with most women in line — \$25.
- Auxiliary coming greatest distance — \$25.
- Best piece of apparatus in line — \$35.
- Oldest piece of apparatus in line — \$15.
- Oldest fireman in line — \$5.
- Company coming greatest distance out of state — \$25.
- Out-of-state company making best appearance — \$15.
- State company coming greatest distance — \$25.

Participants completing the march to the stadium may compete for the following awards:

- Band concert — \$50.
- Drum and bugle corps — \$50.
- Best drilled fire company — \$50.
- Winner of the hook-up — \$25.
- Best demonstration of school training — \$10.

The fact that selective service boards are rejecting a high percentage of men for military duty because of physical fitness, Dr. England states, surely indicates malnutrition as one of the major factors involved.

Milk is the finest food source of calcium and phosphorus. These are bone and teeth building elements. In addition to these, milk contains a number of other minerals.

Dr. England says that from the standpoint of vitamin content milk ranks as an outstanding protective food, as it is an excellent source of vitamins A and G, and a good source of vitamins C and E. He urges rural people to use more milk at home and derive a better living from the farm.

Company G, Cumberland's own soldiers, now in training at Fort George G. Meade, will go to camp Ritchie, Cascade, Md., on a motor-trip tomorrow for an overnight stay Monday, the One Hundred and Fifteenth Infantry.

(Continued on Page 8, Col. 3)

**FURNITURE SPROUTS**—Mrs. Carl Hammersmith, of 624 Columbia avenue, bought a painted, rustic style flower stand just before Easter and the other day she noticed three green shoots growing from one of the stand's legs. Jean Getz, Mrs. Hammersmith's granddaughter, is pointing to the largest sprout which is four inches long. The other two sprouts can be seen just below the larger sprout, opposite the girl's thumb and up above about a foot. A neighbor said he thought the wood was from a shumac tree.

## Chairmen Are Appointed To Assist In U. S. O. Drive in Allegany County

Leaders Will Name Twenty to Forty Persons To Help in Work

Organization of leaders throughout the county is almost complete for the Allegany County campaign of the United Service Organizations which will be conducted the week of June 23, Thomas P. Conlon, chairman, announced yesterday. As part of the nation-wide drive for \$10,765,000, Allegany County was assigned a quota of \$16,000.

At yesterday's meeting attended by local representatives of six service agencies sponsored the drive, Conlon announced chairmen for sections outside of Cumberland.

They include Anthony Monahan, Mt. Savage area; Casper Taylor, Clarksburg area; Edward Boyle, Eckhart region; Ross Shaw, Oldtown section; Miss Eleanor Morrison, Westport area; P. J. O'Brien, Luke section; DeSales Maher, Midland area; Mrs. Arthur Hoffa, Barton section; James Parks, Lonaconing area; Lewis Smith, Vale Summit area; Mrs. W. O. McLane, Frothingburg section; and Judge Roy Bowman, Cresaptown area. Each of these chairmen, with others to be named within the next few days, will appoint committees of from twenty to forty persons, to solicit the areas assigned them.

According to the budget committee, composed of Clarence Lippe and James Alfred Ayvett, Cumberland citizens are expected to contribute \$10,000 to the fund, with other sections of the county contributing the remainder \$6,000. Lippe, in presenting the budget, emphasized that all quotas were based on the population figures of the modern hospital and the school of nursing of the United States attracts the admiration and the envy of the civilized world," the speaker added.

"The hospital as we know it today has been transformed by scientific technology, by scientific invention and discovery. The hospital does not exist for the trustees, the administrative staff or the medical staff. It exists for the benefit of the patient. While this is its primary purpose, it has a secondary function—that is to teach. The doctor who is honored by staff membership has an opportunity to work with his brother physician—the laboratory, the X-ray and other agencies. The practice of medicine has long since gotten away from the limitation of individual error and individual capacity—and substituted group study, group thought and group action.

**Nurse Is Backbone**—The backbone of this highly skilled and personal service is the graduate nurse. There is no profession that commands higher respect.

## Other Local News On Pages 6 and 8

## Mayor Irvine Signs Name 300 Times to Two Sets of Bonds

Mayor Harry Irvine yesterday completed the job of affixing his signature to \$300,000 worth of bonds which recently were approved by the General Assembly and Gov. Herbert R. O'Connor for the construction of the Cumberland airport near Wiley Ford, W. Va., and the addition of a new wing and other improvements at Memorial hospital.

The man who wields the big stick at the city hall wielded his trusty fountain pen for one hour and a half in signing his name 300 times. Each bond is marked \$1,000.

Both of the bond issues are for \$150,000.

Emerging with a sore arm, the mayor remarked that he wore out a pen point in placing his famous signature on the certificates.

Samuel E. Griminger, city clerk, also was required to sign his name 300 times and he was reported resting comfortably after the "operation."

## Fort Hill Will Present Pageant On Education

Play for Annual Class Night Written by Esse V. Hathway

A pageant of the growth of education and the interdependence of the school and community entitled, "The Altar Flame," will be presented this evening at 8:15 o'clock by the seniors of Fort Hill High school in the school auditorium.

The "Altar Flame," Fort Hill's annual class night program, was written by Esse V. Hathway. Supplementary features of the review have been written by Adine Brant, Viola Owens and Kenneth Wise, members of the graduating class.

Seventy-five in Cast

A cast of seventy-five will enact the festival of the fulfillment of the ideals of education, and the responsibility of the community in the pattern of the past work of the school. The serious theme is relieved by the humor and gaiety of irrepressible youth.

The committee on arrangements of the exercises are Nadine Sensabaugh, Lorraine Brechbiel, Audrey Hoff, Paul Long, Harmon Wishmyer and Miss Gerardine Pritchard, social adviser.

Members of the faculty assisting Miss Pritchard are Messrs Hasbick, Matill, Perdue, Shumaker, Holtz and the Misses Seebie and Coleman and Mrs. Hughes. Jane Kester will accompany musical numbers.

Seniors presenting the various scenes of the pageant include:

**Several Scenes Included**  
**INTRODUCTION**—Thelma Young, Marion Jackson and Nadine Sensabaugh.

**LIBERAL ARTS**—Doris See, Frances Weaver, Juanita Reider, Lois Johnson, Louise Kester, Betty Bolinger, Betty Reid, Frances Young, Janke McKenzie, Margaret McFarland, James Kave, George Jolley and Charles Patterson.

**RELIGION**—Verna Dale Stemple, Estella Zihlman, Mary Parham, Maxine Pullin, Dorothy Valentine.

**LAW**—Betty Bolinger, Edna Mae Johnson, Juanita Reider and James Kave.

**EDUCATION**—Constance Ellis, Elizabeth Willard, Elaine Miller, Evelyn Weaver, Mary Margaret Lump, Anna Avery, Shirley Blaker, Juanita Hamilton, Evelyn Isom, Betty Kemp, Eloise Wilt, Ada Sacks, Charles Patterson, Paul Long, Lorraine Brechbiel, Dorothy Weaver, George Jolley, Jeanne Habelwood and Viola Owens.

**INTERLUDES**—Mary Allee, Jean Meister, Helen Smith, Maxine Smith, Virginia Reel, Eloise Wilson, Bernard O'Donnell, Betty Hare, Audrey Hoff, Betty Hixson, Eugene McGill, Mina Montgomery, Maxine Pullin, Lois Johnson, Louise Kester, John McHugh, Dorothy Weaver and the Top Hats.

Special music will be furnished by the school orchestra and the A Capella choir.

## Welfare Board To Meet

The Allegheny County Welfare Board will hold its regular meeting today at 2:30 p. m., at the board office, 37 Washington street.

## America's Schools of Nursing Envy Of The World, Cotter Tells Graduates

Hospitals and Nursing Exist for Benefit of Patient, He Says

The art and science of nursing are kept step with the progress of other scientific endeavors, Charles J. Cotter, superintendent of the Washington county hospital, Hagerstown, told the ten young women who graduated from Memorial hospital school of nursing in exercises held last night at Centre Street Methodist church.

The modern hospital and the school of nursing of the United States attracts the admiration and the envy of the civilized world," the speaker added.

"The hospital as we know it today has been transformed by scientific

## Frederick Firemen Will Make Bid for 1942 Convention

Seek Golden Jubilee Event; Cumberland Plays Host Next Week

Firemen of Frederick city and county yesterday notified Nelson W. Russler, general chairman, that they will come to the Maryland State Volunteer Firemen's Association convention here next week to make a bid for the 1942 Golden Jubilee convention of the state organization.

Russler stated that D. Edgar Bittle, of Myerstown, president of the Frederick County Volunteer Firemen's Association, will deliver the formal invitation to the convention.

Mayor Lloyd C. Culler, an official delegate to the convention, will also invite the firemen to Frederick on behalf of the city.

An added inducement in the form of a financial guarantee will be offered. For the past five years Frederick city and county fire companies have been making regular contributions to a fund designed for use at the 1942 convention, provided it is held in Frederick.

Officials of Frederick told Russler that the fund totaled about \$2,200 and said approximately \$500 more will be added before convention time.

Next year's jubilee convention will mark the fiftieth anniversary of the state association.

Only twice since the first meeting has Frederick played host to the firemen of the state—in 1903 and 1923.

Next week Cumberland will play host for the first time since 1917. The 1940 convention was held in Lonaconing.

## Morgan's Body To Lie in State At Masonic Temple

Knights of Templars Will Form Guard of Honor at 11 A. M.

The body of William L. Morgan, 87, banker, who died Sunday at the home of his daughter, Mrs. Gertrude M. Shipley, Westminster, Md., will lie in state today at the Masonic temple, Greene street.

A guard of honor from the Knights Templar will be at the temple from 11 a. m., until the funeral hour.

The Rev. William A. Eisenberg will officiate at the burial service, assisted by the Rev. Dr. James H. Strong, Pittsburgh, Pa., bishop of the Methodist church.

Active pallbearers will be Lloyd Rawlings, John J. Robinson, Robert Critchfield, Jesse A. Hoover, William J. Edwards, Thomas A. Shires, Frederick P. Keyser, and Joseph W. Footer.

Honorary pallbearers will be Charles A. Piper, Charles G. Holz, George G. Young, Frank E. Smith, Morris Rosenbaum, William C. Walsh, Dr. Thomas W. Koonitz, Edmund P. Burke, Chief Judge D. Lindley Sloan, and Associate Judge William A. Huster.

Thomas Whalley, Dr. W. F. Williams, Frank L. Fisher, John R. Atkinson, Harold W. Smith, William P. Rizer, Cyril M. Croft, Henry U. P. Flursbush, Douglas Bauer, Dr. G. Guy Shoemaker, William H. Lewis, Clifton S. Fuller, William M. Enslin.

Calvin S. Keller, Earl M. Knott, Edward M. Heber, George M. Schramm, Robert M. Hutchinson, A. Y. Wilson, Irbis S. Rutherford, and Allen B. Speir.

## City To Remodel Central Station

Leaky Roof, Falling Plaster and Sagging Floor Brings Emergency Order

Central fire station, which has been in existence for almost half a century, and has been badly in need of repairs for many months, will be remodeled and streamlined in the near future as soon as estimates are made on the approximate cost, Mayor Harry Irvine announced yesterday.

The mayor announced that the action to have the old brick structure opposite the city hall put in safe condition came following last week's heavy rains which caused the roof to leak and the plaster to fall.

Tentative improvement plans call for a new roof, the leveling up of the floors, the tearing out of partitions on the second floor and the replacing of the antiquated circular doors with the modern type doors similar to those in operation in the garage of the police department.

The mayor remarked that the "fire eaters" are experiencing much difficulty in ducking falling plaster and many of the members of the department have developed bow-legs because of the numerous dips in the floor. Hence the emergency measure to remodel the building from top to bottom and to apply a coat of outside paint to add to the appearance of the old structure.
